My Dear Sister

I feel truly thankful to God that I have this opportunity of writing to you. I felt glad to hear of your safe arrival in the home of the saints we were expecting a letter from you every week. I suppose that Mother has told you all - the news so it will be no use for me to tell you that over again things at home are usual or about the same as when you left you asked me to tell you how Father went on now towards Mother well I think as far as I can see that he treats are about the same if there is any difference it is for the better I was not at all surprised to hear that you and James had broken off your engagement nor was I sorry because I think as I always have done that there was not that (2) love on your part that ought to be to give your happiness in your fucher life and thus I feel glad that things are as they are well do right my dear and you shall not lack any thing no not a husband but every good think shall be yours I feel glad to tell you that Ellen is much better than she was and so is your brother George. I have not enjoyed such good health for some time past as I do at the present I do not see much prospect of us coming out next year. I cannot leave very well without Ellen at any rate I should not like to do so and unless I can get help why I cannot come. but as I told you before you left just how I was placed so if you should see a chance do not forget it for I do not want to be hear any longer than I can help but I mean (3) to do my best to get away but you know that I have not much chance to do much after I have paid the church affairs and keep myself decent. I find that I have not much left Give my kind love to Br & Sister Brazier and

family and also to Br Doll and family and all the people that I know not forgetting James and Frank & Betsy & Fanny & Harriet I dare say Mother will tell you a little about my affairs well I do not mind you knowing but I do not want you to tell anyone dear but keep it to yourself if there should be anything before long (I need not tell you what for you may guess) I will let you know about it well I do not know that I have anything else to say just now as there is not much time for it must be posted to night to go by this mail well my Dear I pray God my Eternal (4) Father to bless and sustain you and that his Holy Spirit may be in you at all times well good bye my dear and God bless you Ellen joins me in kind love to you do not let anyone else see this and you must forgive me for doing it so bad for it must be going off to be in time God bless you my Dear Girl. I remain your affectionate Brother

I had thought that I told you that we and
children should move and move Stafford was
quite equal to London for a day.

Mr. Piff. Volunteer was from my strong hope

from their hand with them and after it is
very pleasing to see the dear little fellow moved
through the town in their uniform and they
play very nicely in the streets the mother to be
teaching them and to tell them how to be a
man. I am very happy to hear of them.

Thomas Clark is married and
lives in the Denon. He is now married to his
wife and but the son of the first young man
comes in sometimes and works for Father
and when he has a short time he has made
not told us about the other of the family
and he said nothing about you or what he had
said. He told us of the marriage of a woman and
children he told Ben that if it was the same
some day and it is long and we are the same.

He is here of the church at present. He is in the
very well and the church is very much in the
power of a man from the first year of his
telling him there was no little money in the
way to him that is a strange sight. He is
at present has said to ask his brother to send
a message but he says he is doing something
and is very happy and would not like to be
hardly again.

He has had no more children. I am
amused and wrote to you. Ben told me before
he was out of the city. He has been to

 while she was without a removal of pains at the

My very dear girl

I have waited for a letter from you till I am weary with hope deferred. I therefore have come to the conclusion of writing a few lines to you which I more earnestly hope will reach you safely and find you well and happy. Thomas Clark tells me they have had several letters from Frank as many as 5 or 6 so it appears very (torn out) that neither I or Sister Sanders get any she received one from James some weeks (paper missing) but not a word from either of the Girls since they were at Florence, We do not (missing) to accuse any of you of neglect because of (missing) we cannot tell how it is. My Dearly Beloved Child:

I take this opportunity of writing a few lines in reply to your long looked for and most welcome letter which I received safely on the 12th of July, and Oh! how I felt I cannot describe, but my heart overflows with joy and gratitude to God for his great goodness and mercy towards you in blessing you with health and strength and all you need. I am truly thankful to say we are all well and most sincerely hope you are enjoying the same blessing.

You say, my dear, that you sometimes feel dull when you think of being so far from us all. I know you must feel so, but I hope you will endeavor to keep up your spirits at all times for as you observed in your letter, time slips away quickly and it will not be many years, I hope, before we shall meet again and then in the joy of that, we shall forget all we have endured by separation. Your being so far off without one of us is the only thing that disturbs my mind.

I cannot feel sorry that you are safely in the beautiful valleys of the mountains. You have got over the toilsome journey while we have got it before us, but I feel as if I shall not mind that or anything else to be able to join you, my dear girl, and be near you. How often I look across the Meads and wish I could wing and fly to you for you are never no never out of my mind, and my constant prayer to God is that I may soon have the privilege of coming to you for I assure you dear I don't wish you back to England for things get worse and worse here with no prospect of improvement. I wish with you that we were all safely with you, but there will have to be some great changes take place before that time comes. What they will be are known only to the Great Ruler of events and is He not making bare his mighty Arm among the nations of the earth to establish his great work in bringing about the restoration of all things? My heart burns with gratitude when I reflect that I and all my dear children have a part in the great work of the last days. May we every one be kept faithful to the end is my earnest prayer.

I hope dear, that you received the letter I posted to you on the 10th of July, two days before I received yours. I had waited till I could wait no longer. I directed that to Bro. Dall's but I hope you will get it safely I shall direct this to the city, Sister Sanders is writing a piece to enclose in this for Fanny so please dear, give it to Fanny as soon as you can. Poor Sister Sanders has received no letters yet which we all think very strange. She was very sorry to hear the news you sent respecting Fanny being married, but as she is writing it is not worth while for me to say any more about it. William sent us a letter to read that he received from Bro. Kelsey in the Valley and we heard from him that (Barny) is living with a Bro. Walls, but I really do wish some of them would send their Mother a letter to ease her mind a little. Harriet has not sent a line at all since she left her home. I feel thankful my dearest girl that such is not the case with you and I hope never will be till we have no more need of writing, for I don't think I

could bear it quite so well as Sis. Sanders does but poor thing, she feels it very much. I do not intend waiting for your letters any more but will write to you as often as I can and hope you will do the same for you know my dear that you cannot send me more letters than I want to receive. I had one from my very dear friend Bro. and Sis. Lindsey by the same post that I had yours. A real good letter. It was written from Florence (Neb.) I expect it will be late this year before the Emigration gets in as they are so late in starting from Florence (Neb.). I hope dear that you will see Bro. & Sis. Lindsey and get acquainted with them. I feel sure that they will be almost like a father and mother to you for my sake. They have been dear and faithful friends to me and I have missed them very much indeed and do now for it is, as I dare say you have found out by this time, rather difficult to find people that you can fully and freely open your mind to but such they were to me and, therefore, I want you to get acquainted with them and then if you are near each other you can often talk of me and old times. I shall send a letter for them to the City, so if they have not arrived when you get this you can enquire for it and take charge of it for them if you like. I wish we could write to each other with as little difficulty as we can in this country. I should not mind the separation quite so much. You speak in your last letter about the girls coming. I hope they will never have to do that without me. I don't feel that I could let them. I am sure my dear girl that you have realized the truth of much that I said before you started. I could foresee many things that lay before you going as you did, but I felt to place you in the hands of that Almighty God who has brought me safely through so many trials and I now feel to bless and praise his Holy name for all His great mercies toward you and my constant prayer is and shall be that He will continue to bless, cheer and comfort you under everything he may call you to pass through, for his gospel's sake. Well my dear as regards your getting married, you pretty well know my feelings on that subject. I tell you now as I told you before I shall be most happy to hear that you have got a good husband. I should then feel that you had some one to speak to and to care for you, but there is one thing let me say, be sure you have the man You Love. Don't rush headlong into matrimony. Remember it is a solemn covenant for time and eternity. You know that I never wish to control one of my children in that matter. Give them my advice and then let them act according to their own feelings. Give my kindest love to whoever it is. I wish you had told me for I feel anxious to know. But I have full faith in you my dear child, that you will act with wisdom and may God bless you both all the time. I hope you will be number one though.

George and Ellen desire their best love to you. Ellen was pleased indeed with the piece you wrote to them. They appear very comfortable now. There is no prospect at present of your being Aunty and I hope there will not till they get where you are. Emma is still at home. She, with Eliza and James, desire their best love to you. I don't know yet whether I shall get them to write a few lines to you. I often scold about it, but they don't forget you I assure you dear, there is not a day passed without our talking about you. I do feel so very much grieved that I did not send you a parcel by Bro. Lindsey, but when you write again tell me what things you are most in need of so that I may get them by degrees ready in case I have an opportunity of sending next year. But I hope and pray that something will turn up so that we may come for I feel that I cannot rest here much longer.

Sept 20

It is some time since I wrote the first part of this letter. I really find it difficult to sit down and write a letter now there is so much to do

but having heard of a situation for Emma and having to go to London with her to see about it I thought I would wait and see the results so that I could send you word. Mrs. Cornwall told her of it and recommended it. It is at a friend of theirs at a coffee house in Bishopgate St. near the bank. It is a most excellent place. She has been there now for three weeks and likes it very much. It is just her delight, plenty of life though there is also plenty of work. They do not open on Sundays so she has that day to herself to go where she likes. Father, Eliza and James were there last Sunday and spent the day with her and went to the exhibition on Monday. She told Eliza she had 30^s given her the first week she was there. I was surprised. If she stays and is careful it will be a good thing for us all but I don't wish Father to know exactly what she gets in fact I have not told any one for it was a great struggle to me to get her things suitable to go and now she must pay for them. I hope she will do well but she causes me a deal of anxiety for fear she should be led away. She is so very flighty and she has grown such a tall showy girl that I feel fearful. I shall be glad indeed when I have them safely in the land of Zion.

Well my dearest girl I am very glad to tell you that Sister Sanders has received the letter from Fanny and Betsy which gave much pleasure to all of us. They were very interesting. Anna is home for her holiday and she has brought one that she received from Betsey T. Clarke tells me they had one by the same mail from Frank. Sister Sanders also recieved a paper containing the sad news of poor John Brazier. Poor boy, we were all very grieved to hear of it. What his parents feel I can imagine poor things. I hope the Lord will bless them with strength to endure but it is a heavy stroke for them. George went to Harlow and broke the sad news to poor Priscilla. Poor girl, she was cut up and had buried her Aunt about a fortnight before. I have not seen her myself, but she with her Husband and family are pretty well. We had two sudden deaths in Stortford last week. Old Bro. Beadle the tailor was taken and died in his chair in a few minutes about half past 8 in the evening and old Mr. Player at the wharf dropped dead while dressing himself the next morning. There has been quite a number of thos very important and interesting affairs, In fact, the boys and girls all appear in a desparate hurry among them we have got M.A. Westwood married about 6 weeks ago. She was married at Epping, George and Ellen went of course. I hope poor girl, she will find things all that she expects but I have very strong doubts on the subject. You would be very pleased to see what a nice comfortable home George has got and Ellen takes such pride in it and keeps everything beautifully clean and nice, but poor George looks very sadly. Every one says he is very much altered in appearance since he has been married, but I hope he will get over all that. Wm Sanders has received a letter from James I forgot to mention this before, you must excuse the way my letter is disjointed for I write the news just as it crosses my mind. They have not told Mr. Sanders who Fanny married. We all thought I would be very unwise. I do know they have told him she is married and I believe that's all.

Sister Webb has written a few lines to enclose with this. We thought you would like to hear from others as well as me. We have not much alteration. Mrs. Searle has left us and is working Mr. Searle's Bro. Webb works at the shop now. I don't know if I told you that in my last letter. He desires his kind love to you and all the old friends. Mrs. Brett called the other day and wished me to ask you to send word when you write to me if you know anything of her husband. She cannot hear from him at all. She has sent three letters to him. I am sorry dear that you do not get the papers. It is dis-

couraging to send them but I shall send you one or two with this letter. I think I shall now leave off and leave the space for some of the others to fill up. I must say James said to William, everybody sends their love to everybody. Well my beloved girl, will conclude with the warmest love of my heart praying God my Heavenly Father to bless you at all times with his richest, choicest blessings, I remain as ever your very affectionate mother,

M.A. Savill
(Mary Ann)

My dearest Sister:

It is with feelings of regret and joy that I write a few lines to you. I regret that I have not written before and joy that I can tell you how we are and also how we are getting along. I suppose you will hear all the news from mother as she has, I expect, written a long letter to you. I have great pleasure in telling you that we are all very well at present and I was glad to hear you were the same. I have just been reading Fanny's and Betsy's letters which they have sent to their mother. They are very nice letters indeed. Marianne and her mother and me and Anna have been to Birchanger today and so they were read there to the old people who were very pleased with them. They were so surprised to hear Fanny and Harriett were married and wanted to know of course whether you was or not but of course I could not tell them but I expect you are before now. Emma has got a nice place in a coffee house in Bishopgate street in London not far from the station. Perhaps you will know where it is. She likes it very much. It is just what she likes to be running about. I wish dear Mary Ann, that we were there with you enjoying ourselves together. Father, mother and all of us. I hope it will not be long before we can come dear. I dare say you would be like Bersey, would not mind coming to meet us. Well dearest, mother is waiting to post this letter so I must close, hoping to see a line or two from you when you write to mother but I expect you do not have much time for writing there where you are. Because of my kindest and best love my dear sister, I remain your affectionate Sister in Christ,

Eliza Savill

(This was written in same letter by mother M.A. Saville...later)

We have a most beautiful harvest with plentiful crop and quantities of fruit, especially plums and apples. Potatoes are going very bad in many places but what are good are very good and heavy crops. We hear fearful accounts from America concerning the war. It is affecting this country very much. The distress is dreadful in the manufacturing districts. Calico and prints are getting very dear, they say that prints will go quite out of wear before long. They have got the best prints now at 10^s a yard and calico are likely to be enormous so I don't know what will be the result. They are getting up subscriptions all over the country for the distressed in the North. Be sure my dear and write as often as you can and tell me all the news you can. Goodbye, God Bless you, Sister Sanders has brought her piece for Fanny which will make mine over-weight so I have taken out the piece written by our James and Sister Webb. I will write again very soon and then I will send them. They do not contain any news only what I have told you but you must write a line to Sis. Webb when you write to me or else she will feel herself offended at my sending Sister Sanders and not hers.

My dearly beloved Girl

I take this opportunity of writing you a few lines as I know you like to hear from us and I felt that I should like you to have a few lines about Christmas as we cannot spend it together. I sincerely wish we could but I hope we shall not be separated many more Christmases. I hope dear you will enjoy yourself in your mountain home in the society of the good and faithful friends to whom you are united by the ties of the Gospel though not by the ties of nature.

I hope you are well in health and spirits. I thank God we are all pretty well at this time. I have been suffering very much for a month with Rheumatism in my face but it has now nearly left me. Your father met with an accident 2 weeks ago. he was cutting some leather pe_____the knife slipped and cut his wrist very badly. We thought at first he had severed the arteries and would lose his hand but as usual the Lord is better to us than our fears

(2) he just escaped the arteries but it was a very bad place it is now healing up nicely though of course he has no strength in it yet but before this reaches you I hope it will be all right again. I hope my dear you have received what I sent you safely and found them them useful I expect you had the parcel before you had the letter apprising you of it did you not. Be sure and give my kind love to Bro Berrett and thank him for me and when you send to me tell him to enclose a few lines. I feel that I have much to tell you dear. I hope you get the papers and you will learn from them some of transactions of Bps Stortford you will have seen the death of poor dear Mrs. Hughes. had quite a job there as you well imagine, I should like to tell you all the particulars but cannot do it very well in a letter poor dear I can never never forget it she is always on my mind She was likely to have an increase in family and the Doctor said she could

not go her full time her confinement must be brought on at 7 months and so they messed her about for a fortnight and she was confined about $\frac{1}{2}$ past 10 on Saturday morning the

(3) 3rd of October and was dead before 2 it was truly awful very little short of murder poor dear. She died with her hand on mine and her poor eyes fixed on me you cannot think how much I miss her the old lady has gone to live with Mr H. they none of them seem to think much of it now but the whole town was upset at the time I am afraid it will do Mr. Hodson no good for many people attach great blame to him. I think a great deal about her. I should dearly like to know how it is with her spirit. I have got a nice card on her death Mr. H had a number made and he gave me 2 one for myself and one to send you but I am afraid it will make a letter over weight. She used to speak of you very often and they gave me a black dress, shawl, bonnet, cap, gloves & collar.

Priscilla Savill spent the day with me about a fortnight ago She was well I never saw her look better her husband and family are all well she had just received a letter from her mother and was very pleased with it she brought it for me to read but I was not at all pleased with it from Sister B does not appear at all contented she seems to long for old England I am very sorry for I am sure there does not seem much here to hanker after at least not to see the Braziers finely go on about it

(4) give my kind love to them all I expect they will have a letter from Priscella before you have this. Give my love to Bro & Sister Lindsay but I will write a piece to them. Also to Bro & Sis Hardy & family. I hope they are well tell Sis H I often see his Father he is about as usual he came in and had some breakfast with me a few Sundays back (your Father was in London) poor old man he quite enjoyed a cup of tea he told me to give his kind love to them all and say that he is very comfortable. George & Ellen are well they both send their kind love to you and all friends. I don't know when George means writing to you he has began a letter a long

time but he says its no use for him to write because I write such a batch and tell you every thing, he does not know what to say. Emma, Eliza and James are all well and of course send lots of love the girls are both at home I don't know what Emma is going to do she wants to go to London and we don't want she should sometimes Father says she shall learn the millinary she talks she should like it but I don't think she would like the confinement. Master James is not fine, to anything yet he is now going to an evening school to improve his

(5) education so that he may be able to take light employment for he is not very strong. You would be surprised to see how tall he has grown. he has been spending 3 weeks in London one with William and 2 with Harry & Jane Taylor they have opened a fish shop near St. Martins Lane and if they mind they will do very well. Poor Aunt Crowe is very ill not able to do anything I don't think from what I hear that she will ever be any better.

I have not seen her myself. Your Uncle John and family are all about as usual. Poor old Thomas Andrews is still in the land of the living but he is now sitting here by the fire with a very severe fit of the skulks arn't you sorry for him poor fellow. I am and hope he will soon get over it.

William Webb and his wife send their love to you and all their old friends. they are all well and hope you are the same. Sister Sanders has posted a letter to Betsey which I hope she will receive safely.

Give my love to them and all you may quite expect to see William and Marianne next year and Sister S thinks of coming as well. Bro. Cannon told William she should if they will work in that direction so I hope the Lord will remove Sanders out of the way first but that we must leave to his superior judgement. I only wish I had the prospect of going with all my family. Hart from Hertsford has sent a reare letter to Brett's mother

it is abominable they talk of having it put in the papers. Brett sent his love to his wife and said he should write her a long letter and bring it himself but I hope he will never be permitted to come back here

We have got another apprentice he is bound for 5 years. he comes from Tholey no one you know Mr Vander Muelin apprenticed him he is a nice little fellow about James age. W Searle Hope Carter and all the old hands are at work for us still we are very busy. George gets on nicely with the machine. he does some very nice work withit now.

Mr. Tucker the green grocer was buried last Saturday he has been ill 2 years. Wm Cornwell is very poorly I think he is in a decline tell Bro Brazier old Billy has done something at last by his boasted strength he has ruptured himself so he is obliged to be a little quiet now. I say it serves him right. I expect his daughter Elizabeth will soon marry she has come home for that purpose.

Give my love to Bro & Sis Dall when you see them and all their family also to James. Fanny, Betsey, Harriet, Charles, William and all who inquire after me. I cannot mention all their names but pray don't forget Wm Wright if he has arrived, I should like to have a few lines from him when you write as you are such a bad Scholar you cannot spell his name, Well dear its all right you have not lost much time yet. we thought of you on the 1st of February next year you will be of age you know so you must prepare to take your fortune.

I have almost filled my paper so I think its time to conclude. I hope you will spend a happy Christmas my dear girl, and also a happy new year depend on it I shall think of you. and may my Heavenly Father to bless you with his richest blessings and grant you the righteous desire of your heart. May you and I and all of us be kept faithful and endure to the end is the earnest prayer of your affectionate mother. Accept my dear one my hearts best love.

Pray write soon - I am looking for a letter every post. God bless you

My dear girl I am sorry I could not send this letter off earlier but I have been very ill with Rheumatism Inflammation could not move myself but thank God I am now getting on well before this reaches you. I hope with God's blessings to be quite strong again, I think I have told you in the other piece pretty well all the news in the other piece, so will now say a little about the parcel I sent you by Bro Berrett which I most sincerely hope you will get safely but I feel rather uncomfortable about it as I see by the Star that the Saints who went by that ship had a good deal of their luggage burnt but I hope poor Bro Berrett was not among the number I shall feel uneasy

(2) till I hear so I hope dear you will write directly you know I hope it is saved as it will be a considerable loss besides the disappointment to you all. I will tell you as near as I can remember what we sent you. Bro B has a pretty little box and a china mug. presents from Emma with their portraits which he took in his box independent of the parcel that contained a little box with a few flowers and some pearl beads and 2 6^s they were from Emma some embroidery and cotton hair pins and several little things from Elisa a case of crochet hooks some new coins from James with some 3 pieces from him poor old chap twas all he could send. A hair net & bonnet strings from George & Ellen pair of Gloves with a 3^s piece tucked in one finger from Bro & Sister Webb a black apron from Sis Westwood pocket

(3) handkerchief & lead pencil from Carey some paper from Jane & Harry Taylor pair of sleeves & collar from Mr. A Cornwell & dress which I hope you will like a pair of boots and a few odds & ends from me you must

get Bro Hardy to put heels on the boots for you I hope they will fit you dear. Sister Sanders has sent a trifle for each of her family. Priscilla sent a bonnet ribbon for George's wife blackcap for her mother Sister Westwood sent a black apron for Sister Bearies and I sent her a piece of blond for a front and some flat pencils for Bro B. The other pencils are for you there is a piece of blend for Sister Hardy. I had a small parcel for Bro & Sis Lindsay but forgot to put it in also another portrait of Emma I was so sorry but if there is any trifle you can spare Sis L dear

(4) do so if I don't bring you & visit more next year perhaps I may send to you again, I have sent you a lot of buttons but I was forced to take them off the papers on account of the noise and put them altogether in a bag or you will have quite a job to sort them out I hope they will all be useful to you I don't think I should let quite every one know everything there is in the parcel I feel so sorry to think I forgot Sis Lindsay though it was not much I sent you some old ribbons dear I thought perhaps you might do something with them as ribbons are so dear, these I mean to take care of every piece.

Your private piece my beloved girl was very comforting to my mind I hope you never will

(5) keep anything from me and always retain the same good spirit that you possess now. hold on firmly my dear child to the great work we are engaged in. I never in my life felt so great a love for it as I do now I wish I could see the same in all my dear ones. I am sorry to say poor Emma seems very careless but Elisa is as firm as a rock you cannot think what a difference there is between them. I am very much afraid that George & Ellen don't think so much about getting away as I should like to see them they have

(6) (across)

got such a dear little home I'm afraid they will be loth to give it up
I do wish he had kept single. she thinks of nothing but dress and her
house. she is very childish in her ways but I hope she will know better
some day before its too late. I forgot to tell you to give my kind love
to Mr Wright. I have not heard from Sister Hardy nor do I wish unless
she writes differently to what she wrote to her Sister that was a letter
to be sure full of complaints but I was not at all surprised because

(7) (across)

she never was contented in this land, Give my love to them both and all
my old friends. I must now conclude praying God to bless you with every
blessing and may we soon meet again.

With my fondest love I remain your affectionate Mother

Sarah Brazier has just come in she sends her love to you all and says

that some day I should so much like to have them. I hope you get the papers
all right

of the Church and with the blessing
of God such a team among the gathered
Saints. The Lord is blessing the plantation
in a marvellous way in preparing the means for
their deliverance. It is known the Lord
will deliver his people from the
judgments that are about to be poured
upon the ^{earth} who put their trust in
him. I pray that the way may be
speedily opened and that all things
may work together for our good.
I am rejoicing more and more in the
importance of keeping faithful to
my religion and trying ever to exert
my power to get out of these
hands. I don't know how you
get on in the winter time were you
here for I am cold the side of a good
fire we have had it pretty sharp
this winter at times, but we live in
hopes that it will it will soon get
warmer. Well I cannot tell you there
is not much to encourage us to stop for
I think I have known the ministers in
a more dull spirit than they are

at the present time for we never have
any strangers come now and if it was
not for Emma & Eliza I should feel my
self quite set down with the Old &

has got a little girl she was confined
february 4. I must draw this to a close
I have not got any more news to tell
you I should be glad if you would answer
this letter and tell me all about the
Valley and all the news you know because
I like to know all I suppose you have
heard that William Sanders is coming out this
year and Miss Sanders and all the children
if they can come but I have not heard

the fact I do feel often for the poor
little I have that heart just living I feel
yet it is very poor I feel been living
off nothing this letter thinking to be after
all poor of letter and coming I
but we must know yet the total here about
it had week and the total then the world go
to the total but the children shall and
go where I have been and had and the world
then from an eye and interest to go and then
had from then the total heart keep for preparing
and pumping and all will be well. Marianne
that and come to me yet the last wife
will not from come and I have been and
but I and then in your effort to be there in
with me at home for letters but I have never
understand it and it makes me feel
very uncomfortable thinking about it
the minute I thought of it and I am not
was convinced that it will do the will as the will and
make the business instructions the think
they will have the stand the children away
if that thought be the same it will make
the family the same I wish we were all going
out of it this year. I am sure dear friends that
you must try to be patient and wait for
times the time does indeed seem long and
we parted and yet it appears to have often
completely I never thought I could have lived
I spent away from one of my dear children
without leaving them but we stood - Mary
and we could have till we replaced in it
and then we realize that the promise
of God is there that at our last one thing
shall be but to the hope and trust we
shall not be separated many more years

My dearest Mary Anne

With my fondest love I take
this opportunity of writing a few lines to
let you know that I received your letter with
the pleasant smile late on good Friday morning
March 24, and I am tell you that it was better
to me than I had ever known. I was pleased to
read we had all been anxiously expecting it
every one who has seen it considers it an
excellent likeness I don't think you appear
much altered except being thinner I think
you are looking much thinner but I suppose
that was due after your illness which will
account for it. We all like your style of dress
and think you are very smart with your ear
rings and what we have set it down for
the engaged ring on your finger, is it so.
I gave it to father he looked at it for some
time and at first thought it was your wedding
diamond but he saw I was who it was and
he then asked more questions about you
than he has ever done before he asked
to know what wages you are getting
and all the particulars as when you write
to that I saw some of the same. I have seen
you in Epine for a week the day from home
the was very uncomfortable to spend with you
but I felt sure that the children would
the next day for Sunday. The divorce

My dearest girl I feel to want to say
a word to you but cannot I was very
pleased with your letter but still there
was something about it that was not
satisfactory to me. I want to know more
about what you are doing for a living
and how you are treated. I cannot help
thinking that some people change
very much when they get to Lion is
it not so dear. Bro Scott sent word
he met James Saunders at Conference
and he did not even ask how his
Mother was we have not told her of it
yet - let her read the letter as you
write and I thought it would hurt
her feelings. Tom Clark called and
told us they had got a letter from
Frank and he said James had
behaved well all to him that
made your father go on finally. When

Send word when you write again.
Another Mr. Sanders has ever written
to his wife. I have just heard that
he has given notice to leave his
home and is going to sell his fur-
niture and go to London with
Mr. Watts. You did know how hard
it does look to us to break up his
home after all these years. I do
feel for him and earnestly
hope to meet him.
I forget the day Mr. Green

My dearest Mary Ann

With my fondest love I take this opportunity of writing a few lines to let you know that I received your letter with the portrait quite safe on Good Friday morning March 25th and I can tell you dear it was better to me than 2 hot cross buns. I was pleased in deed we had all been anxiously expecting it everyone who has seen it considers it an excellent likeness I don't think you appear much altered except being thinner but I suppose that was taken after your illness which will account for it We all like your style of dress we think you are very smart with your ear rings and what we have set it down for the engaged ring on your finger is it so.

I gave it to Father he looked at it for some time and at first thought it was your cousin Susan but he soon saw who it was and he then asked more questions about you than he has ever done before. he wants to know what wages you are getting and all the particulars or when you write so that I can send it to him. I have sent you to Poplar for a week to see poor Emma she was very unwilling to part with you but I promised her she should have the next - to keep for herself. She desires

(2) her kindest love to you and thinks you are very much improved in fact she says you look quite the lady.

I must now tell you a little of her proceedings she went to Sarah Nelsons to stay a week or 2 and try for a situation and got one as Parlor maid at Poplar Hospital where Betsy Graves from Hunsdon lives book, but it is so very hard and her health is so bad she will not be able to stop her breath is so bad that at times she cannot speak and such pain in her side I quite think she has a disease of the heart it makes me very anxious

about her she is not at all fit to be away from home but poor girl she is anxious to get her own living and there is nothing to be got here and Fathers trade is very queer indeed people get into his dept. so much that he cannot get his money together to meet his heavy payments so I don't know what will be the end but I hope the Lord will help us I don't mistrust him. he has always helped me and will do so still if I do right, which is my desire and I hope it will be still, now my dear girl don't you make yourself at all uneasy because all is right at present. You want to know dear the time of your birth, you were born just before 12 o'clock on Sunday night - Feby 19th 1843. I suppose you are going to have your fortune told are you not if it is so you might send me word the particulars, you also ask me if there is any prospect of your being Aunt. Well I think you may look for that most important event to take place about November if alls well, but she is very odd in her ways (I mean Nelly) she does not say much to me about it she tells Elisa most but I expect when the time comes she will sing out for me she tells Elisa she shall, they both desire their kind love to you I expect you have received thier letter long before now, before I forget it dear did you get your china mug safe, I was very pleased to hear from Bro Berrett I shall be glad to have a few lines from him at any time enclosed with yours and I will answer it the same I would gladly write to all my old friends if it was not so expensive and I am mostly short of cash so we must manage it in that way. Give him my kind love and I sincerely hope his health is quite restored. Also to Bro. Lindsay and family I hope they are well I hear he has a little Daughter. Also Bro Silver's 2nd wife is that true?

We have recieved one or 2 letters lately from an old friend A Ross after a long silence he has sent his Portrait to Elisa he is now gone

to visit his friends in Scotland previous to his departure for the valley,
if he was nearer I would send you a small parcel by him but of course as it
is I cannot but I hope Wm Sanders will be able to take it for me. Sister L
received a letter from Fanny telling of the death of her dear Baby

(4) Poor girl I do feel for her also for poor Sister D. have they heard any
thing of William yet - it is very strange I have been driving off writing
this letter thinking to be able to tell you is Sister Sanders was coming or
not but we don't know yet - She told him about it last week and he told her
she could go when she liked but his children shall not go there he can
prevent that and he will their names are all entered to go and Wm has
written to tell her to keep on preparing and praying and all will be well,
Marianne has not come home yet - the last ship will sail from London next
Thursday week, May 5 and this is now April 26 so there is not much time for
them Wm S has never mentioned it since, it makes me feel very uncomfortable
thinking about it she wants to do right I know and whatever Wm counsels her
to do she will do he will act under Bro Cannon's instructions she thinks
they will have to steal the children away if that should be the case it will
make a pretty stir here I wish we were all going out of it this year. I'm
sure dear you do but you must try to be patient and wait Gods time, the time
does indeed seem long since we parted and yet it appears to have flown swiftly
I never thought I could have lived 3 years away from one of my dear children
without seeing them, but we don't know what we can bear till we are placed in
it and then we realize that the promise of God is sure that as our day our
strength shall be, but I do hope and trust we shall not be separated many
more years

My dearest Girl I feel to want to say a cart load to you but cannot. I was very pleased with your letter but still there was something about it that was not satisfactory to me. I want to know more about what you are doing for a living and how you are treated. I cannot help thinking that some people change very much when they get to Zion is it not so dear. Bro. Scott sent word he met James Saunders at Conference and he did not even ask how his Mother was we have not told her of it nor yet let her read the letter as Wm Webb and I thought it would hurt her feelings. Tom Clark called and told us they had got a letter from Frank and he said James has not behaved well at all to him that made your Father go on
(2)
finely, When you write again send me a private piece and tell me all you can. I do have so many thoughts about you dear tell me if James and you are acquainted now or not and if you are on friendly terms with them all. I have heard that Bro J Lindsay is divorced from his wife is that true and if it is what is the reason I hope it is not so I cannot help thinking about it. I am very thankful dear that I have the opportunity of sending you a few trifling things which I hope will be useful to you Bro Berrett has taken the girls portrait away with him to have them fitted both in one case so they will not be in the parcel but I shall send you one I have of Emma as I think it is most like her she has the same dress

on in both but you will not thin, so he has also taken a fancy box and china many presents from Emma he is going to pack them carefully in his box so that they may not be broken she has also sent you some pearl beads and a lot of hair pins Eliza has bought you some embroidery and cotton but I shall put all thier names on what they send they will all send some trifle. I have sent you a dress and a pair of kid boots I hope dearest you will like them M A Cornwell has given me a pair of sleeves and a collar for

you, Harry Taylor and Jane have sent some nice paper and envelopes I dare say you will find a use for all there will be and may God bless you with them, pray dearest - don't neglect writing to me as often as you can never mind the espense I shall always have 1^s to pay for your letters I really dont know how to leave off writing I feel to want (4) to say so much Bro. Scott says he has had his endowment and Betsy A James sent word they had you do not mention it so I suppose you have not tell me when you write, and tell me if you are paid any money or how you manage - I forgot to tell you Father has ordered a machine to do the closing & binding we shall have it next week James is going to learn to work it. Business is very bad your Father worries himself almost to death to get money to meet his bills when they come due. I miss the girls very much but for their sakes I am glad they are away as there is but little peace here I think Father hates Mormonism now there were (5) many came and stayed 3 or 4 days with us at Christmas there is some fine doings with her and William Your Uncle John has had about 50 left - hear old Mr Graves died with his dinner in his mouth one Sunday he had been to Chapel in themorning and appeared quite well but was dead before they noticed him though they were at the table with him. he left them about 50 pounds each

Well my dearest girl I will conclude praying God to bless you now and forever,

(extra sheet)

Send word when you write again wether Mr Sanders has ever written to his wife. As I never met I shall not say your father. I hope I will tell you some fifteen years from now that you and Harriet came on to the meeting and asked if I was not going up to see my Mother the next week. I will tell you I was not. I was not back in the morning. I have seen my baby and has had her 3 months company. He was going back a great deal faster than he came. I have heard several times that you have come home but not stop. Let's hope earnestly that it will be in the corner. You will be surely beloved child. I will now conclude with my friends. Love and that of all your Mother and all the saints desire theirs to you and all their old friends. Praying my Heavenly Father to let his richest blessings rest on you my child. I remain your affectionate Mother. D. D. Southwell

I have delayed finishing this letter thinking I should be able to send you word how things are going to be with Sister S. but I have heard today that the vessel does not sail till the 16th May so I shall not wait any longer, Wm has not come home yet and I don't know what course they intend to pursue but Sanders says if they attempt to take the children he will follow them and bring them back if it costs him his life poor man I cannot help feeling grieved for him. it is indeed hard for his wife and all his family to leave him now in his old days. He now looks quite an old man a person told me today that he frets very much about his wife leaving him it would be a mercy if the Lord would be pleased to remove him before the time comes.

Poor old Sis Ufford died on Good friday. Bro W goes on about as usual he is not allowed to come to the meetings, A Silvester & John Minnford have forsaken us so you see our branch decreasing instead of increasing, poor old Sis Waterman has not been able to

(2) get to Stortford for a long time She with the rest of the good folks from Birchanger desire their kind love to you and all they know.

I am sorry to say Emma is obliged to leave her situation and come home her health getting to much worse and one of her legs has been very bad one of the veins burst and then it gathered and was very bad but thank God since she has been home she is better and the leg is healing I think nicely. She appears so weak and has no breath to walk about but I hope please God she will get all right again She must not attempt to go to London service any more I wish she could learn the milinery She had such a taste for that but Father will not put either of them to a business, Eliza is trying for a situation as nursery Governess if she succeeds poor Emma will stay at home until she gets quite strong The doctors all say she will not till she is

older she frets a good deal about it when she sees other young people able to do something for themselves and she is not and is willing to work. She often says she wishes she was with you.

May 8th We have had an exciting week here this week that is why I have not been able to finish writing but I am determined to do so to night - so am staying from meeting. last Sunday your Father was in London and we had our President here. Elder John Rider a very nice young man and Pricilla Savill came by the first

(3) train in the morning and stayed all day. She had breakfast & dinner with us and tea with her Uncle Ben, She came over to bring some things for me to pack to send by Wm Sanders with a little parcel I shall send you dear, but I am sorry to say we shall not be able to send all She wanted to send as the emigrants are restricted to 5 to weight of luggage, we talked of you all you may be sure she desires her fondest love to you and all her dear ones, she will write to her mother this week poor girl she seems like one of my own in the evening after meeting I went for a walk up Thekerile with Sister Sanders but little did I then think it was the last time I was to see or speak to her in this land on Wednesday morning she received a letter from Wm telling her she was to leave by the 11am train on Thursday morning poor thing she had then to go to work in earnest and get her things to Bro. Webbs and they packed them and took them to the station that night and she and the 2 children went off and no one had the least suspicion, she got every thing ready for her Husbands tea and he went home and had it and sat for an hour thinking they in the town when his eye fell on a note she had left for him telling him about it. Poor man only fancy his feelings at that time He told someone that the tears rolled from his eyes like peas, of course you may be sure it has raised a mighty big sensation in the town everyone is talking about it. We cannot at present

find out what his plans are but quite think he will try to fetch them back but I don't think he will ever find them I cannot think that the Lord has helped her so far through and desert her now. I have had a letter from her today but don't know at all where they are as the Brethren consider it best not to let anyone know until they are gone. Poor woman it has been a very severe trial to her indeed especially not seeing her dear old mother & father before she went Poor old woman she is dreadfully cut up but still she knows its all right I must go and see her when I can, You are sure Mormonism is thought something of here now I told your Father about it the same night fearing someone else might. He was very much put out about it but kept his temper and has not spoken of it since to me but it makes him think I know we have rather more salutes in the street now than we have had,

Old Mrs Jarvis at Harlow wants me to ask you to make inquiry about her Son, George Sister Brazier will know who I mean the old lady is very un easy about them as they don't write to her, she is now past work having been very ill for some long time,

I am going to send you a small parcel my dear by Wm Sanders it will not be much as I send before but I know you will find it acceptable I have sent the portraits of James & Eliza to let you see the difference there is in them since you left Miss E is quite the young woman and having letters from the young men what do you think of that, the young hussy, had one yesterday (5) from Bro Rider our President We do have fun with her. Emma is sitting watching me write this she says you will have more patience than she has if ever you read this through but I know you like me to send you all the news I can.

Well I must tell you that George has an increase in his family. his old lady was confined last Thursday with 14 fine children but 3 of them have since died the rest with the mother are doing well, now are you satisfied, Your cousin Susan at Farnsdon is going to be married to a young man at Birmingham Sarah Nelson desires her kind love to you she is coming to stay a week with

us at Whitsentide, I have not heard from William and Maria for some long time now nor yet from the Crows I don't know what poor James is doing.

Emma wants you to get her destiny foretold or whatever you call it there I don't know, I will send you all their ages on a piece of paper I forgot to tell that William Sanders nor yet Marianne have been home so we shall not see any of them till we all meet in Zion which I pray God may not be many years we must continue to pray my dear that the Lord will open the way and remove every obstacle that now stands in the way of our deliverance. I am very glad to hear you have turned school girl again never mind being laughed at dear. you press on and get all the knowledge you can, that is a privilege you could not have had in this land nicely. It is very pleasing to hear of the progress the people of God are making in your mountain home. I shall expect to see quite a splendid city when I come you tell us of the Theatre but you do not say if you go to it, We have had rather a long cold winter but a very fine April, and now the trees and everything begins to look very beautiful with a good prospect of fruit.

Give my kind love to Brother & Sister Lindsay I quite thought to have a few lines from him in yours but tell him he once said if he did not write (6) to me often there must be something remarkable in the atmosphere of the American Continent so I suppose he has found out that there is, but I will excuse him seeing that his responsibilities are more than they used to be in this land therefore his time is more valuable, God bless them all is my prayer I hope they get along nicely together Mrs. Brett has sent money to her husband to fetch Him home but I am like you dear I hope his business will take him his life time for we don't want to see him here Thomas Andrews desires his kind regards to you and all the big Gunns and little Gunns and to Bro & Sis Brazier and family, Don't forget to give my

love to Bro & Sis Hardy. I hope they are getting along better the people here appear to all know that they are not at all satisfied I often hear of it from one & another Well my dear dear girl I think I must begin to think of closing this rambling epistle or Emma says I shall tire your patience. You tell me of your dream I will tell you mine I often dream of you I thought one night that you and Harriet came in to the meeting and I asked H if she was not going up to see her mother, she said no I have not time as we must be back in the morning as I have left my baby and we have been 2 months coming she was going back a great deal quicker than she came I have dreamed several times that you have come home but could not stop lets hope dearest that it will be us to come to you.

Well my dearly beloved child I will now conclude with my fondest love. And that of all your Brothers & Sisters and all the Saints desire theirs to you and all their old friends Praying my Heavenly Father to let his richest choicest blessings out on you my child. I remain your affectionate mother M A Savill

I have been thinking of you very much lately, and wondering how you are getting on. I hope you are well and happy. I have been very busy lately, but I have managed to find some time to write to you. My very dear Girl

I take this opportunity of writing you a few lines which I hope please God will find you well. I am thankful to say we are all well at this time, we received your letter or rather letters to George, Ellen and the others and were all very pleased indeed to hear from you. I expect you had one from me, After I had that one from you I also received one from James Sanders by the same post. I was very much surprised as I began to think he had forgotten how to write to old England. Please give me love to him and tell him I was very pleased to hear from him. Such an interesting letter, William had not started so forwarded it immediately to him.

Well my dear one I know if you received my last letter you will be anxious to hear how things are moving along here. Sister Sanders & family left London on Friday morning June 3rd on board the Hudson our President Bro. Ryder went with them to Gravesend he has written to tell me that he left them all well

(b) and in excellent spirits. Bro. Ross also went in the same ship. May God bless them and carry (July 10) them safely through is my prayer. I only wish we were all with them I almost feel disheartened, I do so long to see you my dear girl I sometimes can scarcely bear myself but I know it will do no good to give way to my feelings as that will accomplish nothing so I will try to exercise patience and yet more faith We had a visit from Bro Bullock last Sunday, we had a fine meeting he preached twice and gave us every encouragement to hold on to the gospel though it did no good as we so seldom have any change and our meetings now are so very small

I was very sorry to hear such a poor account of Harriets poor girls it is a bad thing for her but I must say I think she was in too much of a hurry to get married, she should have known a little more of him first -

Give my kind love to her also Betsey - I hope she is safely over her confinement Also poor Fanny I do feel sorry for her losing her dear baby its such a sore trial to her I'm sure don't forget my love to James Charles William George with their wives & families - tell Wm I wish him much joy but I don't think any the better of him for not writing me a few lines, And dear Bro & Sister B. I hardly know what to say my heart feels too big for my breast - when I think of them and their kindness to you my dear one May the God of Israel bless them and prolong their lives yet a many years is my prayer that (c) I may be privileged to come and thank them in person I do feel to thank God that he has provided you with such kind friends, I hope dear you will be a daughter to them I am sorry to hear of your being so unsettled but I hope you are comfortably situated long before this I cannot give you any advice on the subject - as of now & I know nothing of circumstances but I hope dear you will seek for counsel and wisdom from your Heavenly Father. George & Ellen desire their kindest love to you. They will write again some time or other They are both well I was very pleased with the letter you sent him I hope he will carry out the advice you gave him to save all he can for his emigration, I don't believe he has began to do that yet but they ought to have done it if they have an increase in family they will find that will make a strange difference in their affairs but they must gain wisdom by experience

Poor Mary Ann's husband is still very ill He has had a fit now and lost the use of one side and she is expecting her confinement every day, poor girl I never knew such a hard case in my life I believe they want for bread often times George has gone to day to see them Ellen does not appear to think much her She will have every thing she fancies in dress , it makes her mother very sad indeed to see so much difference Poor Mr S has parted with nearly everything for food and Ellen is dressed like a lady she actually gave 3^s for a

(d) feather to wear on his hat for week days but I must say she works for

it and takes care of her clothes when she gets them but still she might do without many things she has but of course it is no business of mine and if I was to say anything I should soon be told so don't take any notice of what I say to you, Emma desires her best love to you I think she will enclose a few lines in this She is very poorly, not fit for much but she is in and out at Mrs. Cornswell Elizabeth and her husband are there for a month Poor William is very ill indeed not likely to be here but a very short time He has a sweet baby about 9 weeks old it is very sad, old Billy is about as usual, they desire to be very kindly remembered to you and Bro & Sister Brazier tell Bro B old Mr Joseph Taylor is dead, Charles old donkey & cart passes every day to the station it looks so natural it often makes me think of him have you any donkeys in the Valley,

You mention your Saints abounding dear in Georges letter your Aunts Eliza or Sarah are both in London but I don't know anything about them, Eliza's daughter Sarah is married and got a child I don't know dear what you mean about Sarah Nelson They are well she and the baby have been staying a week with us Your father is gone there to stay she has got a right good husband

(e) he begins to look quite the young man, you would be surprised to see him he is so tall, I have sent you his portrait and Elisa's I hope you will get them safely also the other little articles send me word when you get it - is but little but I hope to send more next year

July 27, Another change has taken place while I have been writing this letter, Mrs Mills has been to Southend and while there heard of a situation for Emma and being the Sea Side thought it would be the means of restoring her health so poor girl she was determined to try it and she says if she is compelled to give it up this time she will then give in and not try service any more I went down with her last Monday and we enjoyed ourselves very

much we were on the Sea an hour and a $\frac{1}{2}$ it was beautiful I thought of you my beloved girl and wished we were on the way to meet you once more I left her at $\frac{1}{2}$ past 5 in the evening in pretty good spirits but very poor health I hope please God it may do her good but I am very much afraid of it. She went to Poplar Chapel on Sunday morning and fainted and had to be taken home to Sarah Nelson's

(f) Please give my kind love to Bro Lindsey, I have not yet received his letter but hope to do so soon, also to both his wives and the dear little one, kiss them for me all of them if you like also my son John Berrett tell him I have not forgotten him, I very often look at his dear old face I will write to him soon, I would write to them all often if it was not for the expence

Bro Webb and family desire their love to you and all their old friends they are all well I hope dear you will get the small parcel safely I sent by Sister Sanders I could not send you much as they could not take it on account of the weight, I want you in the next letter to send me word what you want from England and then I will be getting them ready by degrees during the year as I hope if I do not come out next year, that I may have an opportunity of sending to you by some one, I must tell you that Sister Sanders leaving was very soon dropped We seldom hear it mentioned now. The poor old man gets quite feeble but they tell me he appears in very good spirits, but I must think he feels it a good deal when he goes home & sees no one there I cannot hear who does for him, Ana__ has not left her place I think it made your father feel rather bad, He told your Uncle John a good deal about He told him if I was to go he would go too but I am quite sure if I was to leave him I should never expect to be happy, I don't believe I could do it I hope the Lord will never try me in that way You do not mention Bro & Sister Hardy I hope they are well, give them

my love and tell them that Brother Fred was at Stortford last Sunday they are well and desire their love to them all Sister Hardy's Father is well looks about as usual poor old man, We have not heard from your Uncle William for some time but I dare say Father will call on them tomorrow Your uncle John is very ill with Rheumatism he suffers a good deal with that nasty complaint he never comes to Stortford now he gets quite the old man Your Father looks about as usual

(h) don't see a bit of difference in his looks and they tell me I don't look any older than I did 10 years ago but I begin to feel rather older like you. My dearest I am getting in to years I shall be 48 the 19 of this month, Elisa and James both desire thier kind love to you dear they are very negligent in writing I often talk to them about it they might often write to you, I am very sorry to say James is not yet doing anything - it is a great pity and makes me feel very uncomfortable as I am afraid he will get into drink & indolent careless way that he will not easily get out of I cannot think what Father thinks about him he does not try for anything for the Boy and quarrels with him for being easy and of course I cannot put him out I have made all the I can of people for him but I should like him to have a trade but am afraid he will never have one from his Father

Adieu

My dear Mr. [unclear] I have just received your letter of the 10th inst. and am glad to hear from you. I am well and hope this finds you the same. I have been thinking much of late about the future of our country and the state of our Union. I feel that we are in a critical position and that it is our duty to do all that we can to preserve our Union and our liberties. I am sure that you will agree with me in this. I am, Sir, very respectfully,

My dearest sister and brothers

After a very long silence I again take my pen in hand to write a few lines. I will first express a hope that you with your dear husband are in the enjoyment of good health. I am happy to tell you I am well and comfortable in this my new home. You will guess how very much surprised I was to hear of your being so Tame although I am very pleased to think you are settled & happy. Give my best love to your husband (2) and tell him to mind and keep you "Tame". I should very much like to have the pleasure of knowing him, but I live in hopes at a future day to be able to enjoy his society. You must be sure and send his portrait the first opportunity as we should so much like to see it. Those of George & Charly Brazier are most excellent. George has altered a great deal but poor old "money" is just the same as ever. I presume dear you often see Sister Sanders now give my kind love to her & Marianne and all the others. I am living as you see by the heading at Hollingburg. (A bright place isn't it) with a gentleman as nurse (fancy) I have four children & another expected every day now. My mistress is a Polish lady they are very nice people & seem to like me very much so I suppose I shall (3) (read across) stay I like being here better than at home now I have got used to them. I have been here over two months now. I hope to be able to stay as I am well know there is nothing at home for either of us to wish for only the liberty I missed the society of my dear friends very much when I first came but I have grown off that now. I hear they are all well there. I do so wish we were all coming to see you this spring, prospects are very dull at present but God only knows what will turn up before that time, My earnest prayer is that the day will speedily arrive when we shall all see Zion and enjoy the society of all

(4) our dear relatives and friends. I must wish you much joy dear, and may God our Heavenly Father bless you both with every needful blessing and may you have many years of health and happiness in Zion is my heartfelt prayer. Give my kind love to all enquiring friends - ask Marianne to write to me & I will answer it as I don't know where to write first. I must now conclude for the present, accept of my warmest love and believe me ever to remain your loving sister in the Gospel.

Please dears write to me soon.

I have sent you the copy of Harts letter so you may guess what a talk it has made he must be a poor miserable wretch I think to write such a letter, Brett wrote a piece to his Father enclosed in his letter and sent word he would write a long letter to his wife and bring it himself. She is in a fine fever about it, Sister Brazier's letter is anything but pleasing I am surprised she should write so she appears very disadvantaged speaks of that Wilderness and wishes she could come back for theres no place like Old England if it was not for the Sea she would come but perhaps it is the desire she has to see Priscilla and her family. You might send me word privately if there is anything like truth in any part of Harts letter. don't show this piece to anyone dear, Mr Hughs has given me a very handsome summer shawl and a brown, velvet bonnet of poor Mrs H. for what I did for her, the bonnet cost her 1 pound 17 shillings. it is very handsome I wish I could send it to you

My dear Sister

I dare say you think it quite time you had and note from me but mother is writing so I thought I must put a little piece in and I hope it will find you quite well. I am happy to say I am quite well I hope the next time we hear from you we shall see your portrait inside for I should so like to see it I was very glad to see a piece for me in the last letter because you know I like to have letters so I hope when you answer Mothers I shall see a piece in for me. Eliza and Emma are going to write a piece I think to you so I expect they will tell all the news so I will conclude with my kind love and ever remain

(1) Brother & Sister Webb desire their kindest love if I have room, they will send a piece but I am afraid I shall not - he is quite as anxious to see you as you are to see him - we often talk of you, Before I forget it again dear your letter with the portrait was not the girls are very anxious for another & I hope you get the papers dear but I am afraid you do not as I have heard this week that there is some alteration in postage from New York but I will endeavor to find out this week what it is Give my love to Bro Brazier and tell him I am afraid the person he wants for his 2nd will not be

(2) of much use to him She will be worse than the one he has got for poor old girl she cannot go out alone,

I told you dear, in the other piece that I would say something more about Mr. Carter well he is likely to become your Brother in Law, He has made poor Emma a very honor able offer of marriage - I know he is very fond of her and she of him - I have had some very serious talk with him on the subject - but all I can say does not alter his mind on the subject - he is investigating mormonism and appears deeply interested in it, I have lent him several books so I don't know what

(3) will be done Father seems to incline that way but he is as he was by you leaving home he says nothing and I expect will not tell the last minute, write a soon as you can and tell us what you think about it, He says that if we go away it should make no difference if she wished to go she should and so would he - I told him plainly that I shall do so if please God to open the way for me, I feel dear that I have done my duty in the matter and must now leave it poor girl she feel it very much not being able to keep in service to get her own living, and have had a

(4) letter to day from Elisa she is so very happy and comfortable and that

makes Emma feel it more, the lady that Elisa lives with cannot speak English or at least very little so Elisa is going to teach her and she is going to teach E French in return so you may expect to all hear her quite accomplished when she comes Emma says be sure and send your portrait as soon as you can and she will have Mr Carter's and hers taken together for you the first opportunity she has, send me word dearest what a cloak you would like and I will try and get you one and send next year I hope you got the few trifling things I sent

(5) you by Sister Sanders I expect dear you will get this letter about Christmas I hope you will and I wish you a happy Christmas and most sincerely hope you will enjoy yourself, and all you are connected with I expect I shall have 2 absent from me this year, how I do long for the time to come when I may once more see my dear ones all round me

Emma has sent a piece of their dresses for you to see they have both got one alike and violet velvet bonnets alike they want to know what sort of dress yours is that your portrait was taken in send them a piece of it and if there is anything particular that you want be sure dear you send me word

Well my dearly beloved child I must draw to a close I think I have given you a good history this time so will conclude with all our very best love to you and all enduring friends

Mr Mr Carter desires his thanks for the four bottles he is always pleased to hear of you & am sorry it says he has been out of English Knives & some months through had thought he was gone with all satisfaction to day but I very much fear he will all be able to keep it long he is so extremely weak & delicate that he is still too weak enough to think that he shall get strong again and many times but God forbid I should ever see that without a very great alteration not that I know of the town don't to mind with him as a man but that is not every thing I think you will see it - and as I don't hope he does she has had plenty of talking to about it, I suppose all well and all right you in my last letter that I am now obliged to keep a little more she is no one you know, she is a

My Beloved Children

In the first place I wish you all a happy new year. I need not tell you how very pleased and thankful I felt on receiving Sister Betsey Lord's letter and her mothers telling me of the increase in your family. Oh, how anxious I had felt and how eagerly I had watched every post for the news, but I certainly did quite expect it would have come from dear Alfred. Please my dear to tender Bro. Lord my most kind sincere thanks for the kind and friendly manner he dispatched me a paper; also sister Betsy give them my kind love. I sympathise with her on the loss of her first born, but I hope by the time you receive this she will be safely over her second confinement..

Well, my dear girl you now know what it is to be a mother. It has pleased God to give you an immortal soul to train for him. Oh, may you both be blessed with wisdom in the discharge of that most responsible of dutys, Dedicate that dear child to God my dear ones, that he may grow up a blessing to his parents and all connected with him and a useful member in the kingdom of our God. Oh what would I give to see him. How often do I think of you all,

(page 2) especially when I see George's little darling. She grown quite an interesting child how she runs about anywhere and says many words. They dined with us on her birthday, we talked of you, but little thought how matters stood with you at the time or I should not have eaten much dinner. I fancy it was I think rather singular that your dear boy should be born on the same day of the month that Georges first was. Please dear, kiss him very often for me. And when he can understand, talk to him of us all, but my sincere prayer to God is that we may not be many more years separated for

really I do long for the time to come when we may rejoice together in peace and freedom.

You will be getting anxious dear to know how we are getting along. Thank God we are all well. I have now neither of my dear girls near me. Emma left Southend in November and Josiah staid at home till New Years Day. Dear old Eliza came home and staid a week with us and Emma went back with her as promissed. I have had a letter from each of them this week. They are well and happy, they have promised me to write to you very soon (page 3) and I hope they will do so.

Mr & Mrs Coventry think a great deal of Elisa, they are always making her presents. You would be surprised at the influence she carries where ever she goes. Her dear little people as she calls them do adore her, I need not tell you my feelings on parting with them both. It was just like your leaving dear Polly. I think really I am growing silly. It seems now as if my beloved girls are all gone. They are both very good. They write to me every week. George, Ellen and James with your dear father all join in fondest kindest love to you both and the dear boy. Before I forget it, Emma wants him named George, Alfred (is it so) you must tell us. I was in hopes of having a letter from you before now, but of course I know you have not much spare time on your hands now and I suppose Mr. Alfred never intends writting. I will give him a dressing when I see him! I have been blowing George up (page 4) several times because he does not write to you. He has spoiled, I should think a dozen sheets of paper in the attempt and says he is ashamed of it when he has done and away they go into the fire. They are likely to have another addition to their family. How true dear, have your words come to pass, respecting him. You told him he would find it more and more difficult every year to get away. And sure enough he does, but I hope their day of deliverance will come. James is still at his situation, and gets on very

well. His pay is but very little at present but it is employment and he is learning the grocery business so he will be able to open a store when he comes to the Valley. He is as tall as your Uncle William. Eliza could scarce believe it was him. He has altered so much in the last year. Please give our kindest love to Bro. & Sis Brazier

(page 5) and all their family; especially Charles. Your news respecting them caused me both sorrow and joy. I was truly sorry to hear that dear Bro. B was so sadly. I hope, please God, he is better now. I was pleased to know that they have been prospered as they have. It must be a great consolation to his mind, poor man, I'm sure. How long would they have toiled in this land before he would have had the satisfaction of leaving his dear wife provided for in that manner. I think Sister B. must see the kind hand of God in his dealing with the, in gathering them out and blessing them with such good sons as they have. Tell dear Charles that I pray God to continually bless him and I know he will be blessed for the Lord has promised to bless those who honor their parents.

Priscella and her family are well, poor girl. I sent your letter for her to read as I could not go. She was confined in October and her baby only lived a day. She seems to feel it very much. She sends her best love to all her dear ones. I expect she has written before now. She is so pleased to get your letters because you send her the particulars of her family. Tell Bro. B. his brother Ben and family are all well. Lois is married. Susannah is going to be shortly. Sarah Ann sends her kind love to them all. She intends to be an old maid she says. She often comes in to cheer me up a bit, since the girls have gone. She is about the same as ever. I hope, dear, you got your parcel safely, I long to hear. How grieved I and including all who knew him felt when we heard of the

(page 6) sad death of poor Brother Sims. Truly God's ways are mysterious. However did his afflicted wife and family bear the heavy blow. Poor things. My heart aches when I think of them. Such a fond husband and father. I am sorry to have to inform you of the death of poor sister Mumford. She died almost suddenly with heart disease. She was at Stortford on the Friday afternoon and was taken with a pain in her side. Mr. Bines sent her home in his cart. She died on Sunday morning. It is a great loss to her family, to whom she was a perfect slave. Give my kind love to Sister Sanders and family. I will write to her soon. I was pleased to hear from her and that Wm and James are doing so well. Mr. S. and Anna are both well. I did not show them the letters because they say they don't wish to hear anything about them as Sis. S. chose to leave (lean) in the way she had. They never speak to any of us. Poor old Sister Waterman is very ill. Indeed, she is not likely to be here but a very short time. She can't lay down in bed. She is so large with the dropsy. She takes very little now, and her cough is distressing. It will be a mercy when, please God, to release her. She was very pleased indeed with Sis. S. letter. They both send their kind love to all and more messages than I can possibly put in this letter. Poor Sis. Cook is, I think, worse than ever. She cannot be trusted alone any where. She falls about so much. We have now C. Penrose for our President. We have had one visit from him. He tells me he knows Alfred (Tame) and his family, and I must say, he speaks very highly of them; but I don't want you, Mr. A. to feel at all proud over it because I shall not believe it till

(page 7) you write to me then I may perhaps form a better opinion of you. Now let me beg of you not to lose too much time in playing with that new toy you have bought but spare a few minutes just to send us a description of it.

Please give my love to Bro and Sis Hardy and family. I hope they are well. I was surprised to hear of Hannah. I have not mentioned it. I have not seen Sis H Father for some time now but I have inquired and I believe he is well. Also my love to Bro and Sis Lindsay. I was sorry to hear such poor news of Sister L. Bro. C. Penrose told us a little when I inquired after them. You must tell me about it dear, when you write. Also my love to all my old friends and acquaintances. I long to see them all.

We have had a wonderful mild winter. Much rain. Very little frost or snow. In some places they talk (page 8) of a 2nd crop of fruit but we have not seen it here. I hope you get the papers all right. I send them as regular as I can. I don't think I have much news about old Stortford. I sent you most of it in my last letter, which I hope you got all right. And have you received a letter with another (?) in . I hope you did but you have never mentioned it. I hope I shall be able to send you a trifling parcel this year. I don't know of anyone going at present except our late President, Elder Rider. He is released to go home and I know he will take charge of one for me. If there is anything particular you want, dear, send me word as quickly as possible. I hope and trust you got the one I sent last year as it contained useful things.

Tell Bro and Sis Brazier that Mrs. Harvey has bought their old house and enlarged it very much and made a public house of it as well (page 9) as her other business. She is the woman for business. She surprises everyone. Where is the great Richard Brett now? His wife is doing quite a trade in the shoe making in connection with Ginnes (?).

Poor Mr. Carter desires his kindest love to you both. He is always pleased to hear of you. I am sorry to say he has been out of employment several months through bad health. He has gone into a situation today, but I very much fear he will not be able to keep it long. He is so extremely weak

and delicate, but he is still foolish enough to think that he shall get strong again and marry Emma, but God forbid, I should ever see that without a very great alteration. Not that I have the least fault to find with him as a man. But that is not everything. I think, poor girl, she sees it now. At least I hope she does. She has had plenty of talking to about it.

I forgot to tell you in my last letter that I am now obliged to keep a little maid. She is no one you know. She is a
(page 10) niece of John Hutchins. I was forced to have one as I could not manage the books and everything else. Mrs. Hutchins desires to be very kindly remembered to you, poor woman, she has five little children, the oldest just turned 6 years, and she will very soon have another.

January 20: I will now begin to finish this rambling epistle or it will not be posted this post. I will be like you, My beloved M.A., not wait for any one for it is hours work to get them to write. Bro. and Sis. Muir both desire their kind love to you all. I am sorry to say, she is very poorly indeed but I hope she will soon be alright again. We hold our meetings now at their house. Only one a day. I should just like you all to see the old room. They have done nothing with it, nor the house. The boys have smashed every square of glass and the shutters and go in and out just as they like. It is not fit to look at; is filthy to a degree. You would never believe the sensation we all have when we pass it at night. I say, it appears full of evil spirits.

Well, my beloved children I must

(page 11) conclude with my very fondest love to you both in which your father joins and so do everyone of the family. Praying my Father in Heaven to bless and prosper you in every way, and hasten on the time when we shall meet.

I remain your affectionate mother. Don't forget to give my kind love to your brothers and sisters and all who enquire after us. Pray write soon. God bless you my dear ones. 1,000 kisses for the dear Boy.

M.A. Savill

A dense, handwritten manuscript page, likely from a 19th-century text. The handwriting is a highly cursive, slanted script, characteristic of the period. The page is filled with text, with significant ink bleed-through visible from the reverse side, creating a complex, overlapping pattern of lines and characters. The overall appearance is that of a heavily used, possibly revised or corrected, document. The text is illegible due to the extreme density and overlap of the handwriting.

My Beloved Ones

Your dear & welcome letter was received with much joy by me & all of us at home, I had been getting very anxious indeed to hear from you. I have made my mind up to have a letter from Alfred directly the important event was over I think he ought not to have disappointed me I should have a very long score against him by the time I get there, would to God I was coming with this letter to pay him. Well dearest I cannot express my feelings of gratitude to God for your safe delivery in the hour of nature's sorrow, and sincerely hope long ere this that you have regained your strength and that the dear little ones are both well God bless their dear hearts. how I long to press their dear lips and hold them to my heart and

(2) have them love me like those I have here. Jessie is always with me now, She will not stay at home long at a time and I cannot move & step but she is after me, she often gets an extra kiss for dear little Freddie, She is now sitting by me writing letters to dear Aunty & cousins, but it is in such a peculiar language. I fear you would not interpret it if I were to send it.

Your letter dearest was full of interest to us, as they always are, but they never appear half long enough for us, George always complains of that. but we don't wonder at him grumbling when we take into consideration the number & length of those he sends to his Sisters, he has actually never written one letter to those dear girls in Yorkshire. its a shame considering they are away from all never seeing a Saint or Servant of God from years end to year end

(3) I expect you will have heard from Elisa before now, of the changes that

have taken place, but best you should not I will tell you, Mr & Mrs Coventry & family have left England for Russia they wanted Eliza to go with them but we would not consent to it, so of course she had to leave as well as Emma. Poor Elisa it was a great trial to her in fact to both of them they had been very happy together and did pretty much as they liked and had grown so very fond of the dear little affectionate children that they really were very grieved at parting especially Elisa she quite fretted about it and now she tells me she does not think about them she has taken a situation at Hull with an old lady quite contrary to my wish for she has gone for less wages instead of same, I wish they had both come nearer home but she (4) says she is comfortable but not so happy without Emma - she is living at Bridlington still you spoke of her recovery to health. I wish it was so dear but I fear it is quite different. I have a letter from her last week telling me she thought of giving notice to leave as she is suffering so intensely with her knee & ankle. she has foolishly taken a parlor maids place where she has to carry heavy trays up 4 lots of stairs. they have everything in the first of style, Elisa says it is an immense house and filled with splendid furniture so she has a great deal of work

My dear girl I could not finish this letter the evening I began it, the next morning I had one from poor Emma telling me she was in Hull Infermary, very ill and obliged at last to give up being unable to stand her knee having got so much worse. she is still there

(5) (across)

Well again long before this reaches you my dear Girl we did not forget you on the 19th, we took poor Emma to Cambridge Hospital that day, for we found that Hudson was doing her no good at all. I hope & pray that she may soon get better now. they are treating it quite differently & they make her

try to walk on it which gives her great pain after being 15 weeks without putting her foot to the ground, but we cannot say much about it yet the time is short, I will write to you again very soon. Elisa has posted a letter to Mrs Owen and enclosed a piece for you. Give our kind love to all we have been expecting another letter from Bro Webb as he said there was one to follow the one George had. tell him that was overweight. so mind the rest as we are very poor here now but thank God we got over that. We hear that Ufford is coming back is that true tell Wm that groom has left Stortfordl he draw what little he had in the Emigration fund, when he left as he had no money we have not heard of him since. How is poor dear Bro Brazier give our kindest love to them all. I have not seen or heard of anything of Priscilla since Christmas they were all well then. Give my love to your mother in law & Sister I hope they are all well with their families

(6) (across)

George had some talk with Father last week about leaving, he didnot say a word against it, but asked him many questions and sounded favorable he knows that James & Elisa intend trying to get out but I don't see how they can without some assistance, but we all intend to do all we can and not cease praying the Lord for deliverance. he has promised and will perform in his own time. We are expecting a visit in this Conference from the Apostate Squires. We don't know for what purpose but we have a caution sent us respecting him.

T. Mumford has sent for his Brother & Sister George & Maryann. I am glad to hear they are going. John does not intend going he says. I hope dear you will write directly you get this and say if there is any thing they can bring you that you want from England I am afraid Elisa will not be able to get a machine and poor Emma has no money it has cost her so much for doctor-

ing in illness, Well my loved ones I must close or this will never get
sent at all. I will write again as soon as ever I know who is likely to
come out this spring. Kiss them 2 darlings a thousand times for me and
ask A..... (next page missing)

I was very pleased to see a few lines enclosed in Mothers letter for me, it did me good to know I was still held in remembrance thank you dear very kindly I shall be always happy to see a few lines from you or "Alfred". How are you both dears? I long to see you & become acquainted with my "new brother". I am happy to tell you dear that I am quite well at present & very comfortable. I think I have written to you since I have been in Lancashire, if not I guess you have heard about it from dear mother, who generally sends you a good deal of news I liked this part exceedingly in the summer, but now it is getting cold & dreary here I am not certain whether we shall stay here all through the winter, but I rather expect not. You asked me dearest what is the name of the people I live with it is Mr Coventry. He is a Civil Engineer. My little people are all quite well, my baby has grown such a nice fat girl. she is 8 months old, You say, you suppose I shall speak French quite nicely. Perhaps I shall when I come to see you - but we can never get a chance to have any lessons. when lessons drop one soon forgets all they knew, I sometimes read but my time is always taken up with one thing and the other, Mr & Mrs Coventry always talk in German, so I have a good opportunity to learning that I think I understand more German than I do French. When I come I shall be happy to teach you all I know about it,

Dear Polly when you write you must tell me what you do with yourselves these long evenings, But perhaps you will have something to amuse you soon - another little Tame will be finding its way here probably & then it will be very nice amusement for you both. I hope you won't have as many as I have, Mine almost drive me mad. But I guess we must put up with it, I wish we were all coming next year to see you Oh may the way soon open up when we shall

be blessed with the privilege of meeting & associating with the people of God. I must bring this scribble to a close please give my very kind love to your dear Alfred also to Sister Sanders and Marianne What is the latter doing? Also to the rest of my esteemed friends who inquire after me. Have you seen Brother Ross? Accept of best & warmest love dear and believe me to remain ever your loving and devoted sister -

My dearly beloved sister

I have been going to write a letter to you for a long time past. but have driven it off from one week to another hoping that I should have some better accounts to send you of our darling Emma. You have doubtless heard from poor mother all the sad trouble she is in I can assure you my dear sister, I have scarcely a moments peace of mind, & what dear Mother feels, I cannot think. when I last wrote to brother Rider soon after we left the Coventrys', dear Emma seemed quite well & took another situation in the Quay intending to stay there until the spring when we both intended to go home. However before she had been there long her health began to give way & it was with great difficulty that she managed her work up & down stairs. I (2) begged of her to leave & go home for a month or two, to rest herself but poor girl she said she would not go until she was forced, of course she was anxious to be earning a little to try & get away. I shall never forget meeting her in the street on her way to the "Hull Infirmary." She seemed in the greatest agony & her poor foot was dragging behind her apparently lifeless, I went in with her & saw the house surgeon, Then I had to leave her, one so dear to me among strangers, how my heart sank within me when I reached home at night & thought of that dear suffering girl. I went once or twice every week to see her & took her little comforts that were not allowed in there but found to my sorrow that she was getting worse, we both went to Burlington where we spent Xmas, & having packed up all her things, I came with her again to Hull, I saw her safely off for London where dear Mother met her. From a letter yesterday I learn that she is no better, poor Mother seems almost afraid to tell me the truth about it, but I know

(3) from what she says that the dear girl has yet more to suffer before she is cured. it will be sad news to you my dear Mary Ann to hear that she is so very ill, the doctor says it depends entirely upon her health being kept up whether she loses her leg or not. you may guess how we all feel, but poor E does not know that of course. Mother will not tell her. Mr. Hodson wants her to go into Cambridge Hospital, I firmly believe that Hodson does not know what to do with it & he will be glad to give up the case, oh! dear Mary Ann, I know that your with us will be united in praying for God to restore her, for it is very hard to know that she is suffering such intense pain, I am afraid the bone is decaying, as there is nothing to see but swelling. Oh I wish I could hear it was getting better, but we must hope on & continue to pray earnestly to Him who answers prayer, that our own loved sister may soon be well & strong again.

Darling Mary Ann

(4) if all is well, you will probably see our two dear boys & family this year. They seem determined to start & I sincerely hope that we may also accompany them, altho only gloomy prospects appear for our sweet Emma, still our faith is in the God of Israel who will bring his chosen people through all their troubles if they will keep his covenants & cling to the Gospel. It is joyful news to hear through the "Star" of the large sums of money now being raised by the good saints in the Valley for their friends & the poor of the country, I do so hope that we shall all join you this year my beloved sister, what great rejoicing there will be when we all meet with you & our other dear friends. There will be tears of joy, as we join our hands, after so many years separation. I have been advised by them at home to write to Marianne Owen & to ask her whether she can help us a little, if she could we should be most grateful &

(5) should feel a pleasure in returning it to her as early as it laid in our power. I have not heard from her since she was first married, but I enclose a short letter on this for her, not knowing her address & hope my dear that you will kindly forward it to her, when you see her, I shall be anxious to hear from her & if it is convenient dear girl will you kindly favor me with a few lines you could enclose them in Mrs O's letter. I should love to know how you & dear Alfred are, also how those little sweet fat boys are getting along, I suppose little Alfred talks & runs about like a little man now, what is the baby's name?

(6) of course you heard of the arrival of Master "Herbert George Savill" - they tell me he is growing quite a fine boy - Georges family is increasing very fast & I think he begins to look rather older. Poor little Jessie was getting out of bed or rather off the bed, & Emma was helping her down, when her poor little arm slipped out at the shoulder joint. They were so awfully frightened but she is now quite well, it was done last week, poor dear E was greatly upset as it was so suddenly done.

Feb 26th I have just received a letter from Bro Rider. I am so pleased that it has come before I finished

(7) this letter - he tells me that you & poor Alfred have been ill, how very sorry I am to hear that, but my dearest sister I hope you are both quite recovered. It was very very unfortunate for you both to be ill. Bro Rider seems to be very happy which I am very pleased to hear. I suppose you know Mrs. R. Well my beloved sister I must bring this scribble to a close & am almost afraid that you will have some trouble in reading it - give my best love to your dear Alfred. Kiss him & the little ones for me, & please dear remember me in love to all our kind friends who inquire after us, praying My Heavenly Father to bless & prosper you with all happiness. Trusting that we shall soon have better news to send you of our beloved sister Emma &

earnestly praying that we with her may join in your happy mountain home
this year I remain dearest sister with much love, ever your devoted &
loving

My darling Sister

I am sure you will be getting very anxious to hear from us & we should have written sooner, but we did not know for certain how many of us could manage to get off, & the notifications only came a day or two back, so we thought it best to delay writing until we could send you word positively how things were settled. You will be eager dear to know so I will give you the names before I proceed further. George got his sale over last Monday & every thing is arranged now for him, Ellen & the 3 dear c hildren also for Carry Westwood, Mary Ann Allen & her little afflicted boy, one of Bro Paxman's sons is going under Georges care, until they get in & the last to name of the company from Stortford is our dear James and Emma. This I am sure will please you very much although I am sorry to say she is only very poorly The trouble of packing up & getting things ready lately has seemed to pull her back sadly she is extremely weak & at times suffers dreadful pain in her poor knee, This of course is a great trouble to all of us, for we know that the journey is a long & tedious one for even those who are well & can knock about & for the infirm it must be much worse. but we will look for the bright side for we are all acquainted with the motive that prompts us to move & the same God who watches over us here guards the precious souls who are obeying his commands (3) & are on their way to the "City of the blest" This alone cheers us up, altho it really looks hard to see dear Emma starting in such a state of health but I do sincerely hope that the change may do her good, now my darling I must tell you a little about dear mother, she is as well as can

be expected under the circumstances, she is so busy or would have written to you herself she will do so as soon as she possibly can. I am grieved my dear sister to tell you that you will not have the great pleasure of seeing Mother this year it is now quite impossible I will tell you why, Father's affairs are all settled for him to keep on the business a few weeks ago our apprentice boy ran away showing the state of things here. He thought he would get into a better place, This of course we were not sorry for because we thought that there would be then a thing in the (4) way to prevent Father going off with all of us but alas! after 3 weeks absence the boy returned saying how much he had suffered through fear of being taken by the police & we then of course Father was compelled either to punish him for absconding, or take him back & keep him until his time is out which is next January. Father has taken the latter course with him so he must stay now he has bought all the furniture & ec in again and will now begin business again afresh poor mother is so fearfully dissapointed about it and so am I, but it cannot be altered we thought if Father went he would be able to help us all a little but as it is, he will want every shilling she has to begin business again - it has been very hard work to get Emma & James off with what has been done for George too - so I shall have to calmly submit to circumstances and content myself here a little longer with dear mother.

(rest of letter missing....written by Elisa)

dear, but she is too contented
when she is able, I am also glad
but I don't know why that she
is not likely to marry the doctor
in fact I hope she will not be in
too great a hurry to marry at all
but look round her a little first
and have a good faithful man
of God to stand her about in the
night - Sooths, I feel very anxious
about her poor girl, but you don't
must be her mother, and for a
time, I hope you are all happy
in each others society and mi-
nit, I am pleased to hear of your
James getting about a little and
he is, I am glad you boys & da-
mies run of an evening, you
amused me about the cat, I
don't not think you had cats
I am very glad as I should say
your cat, I know dear Mary often
you would be pleased to have him
there, I hope he is, comfortable
in his situation - he did not by
a great deal about it, your letter
prepared me for the one I had from
George respecting the death of this
dear baby, bless her it was singular

My dear Mary, I am glad to hear
you are well, and I hope you are
happy. I am glad to hear of your

Let them say for one, tell, honestly
I must go to the school for protection
which I cannot do well being from
something else, he is abroad
I must say I hope to see them
also it is almost too much for
me at times, but I try all I can
to be satisfied & never overcome my
get up at midnight till what
the Lord will. But at present
I am so much of an old man
I must say I am, I am better now
of course at it than I was once. As
for the school, I think of it
I think the conduct of some tells
business and I go on quietly
consequently the more I see of the
more I am of the opinion that
it will be in the interest to be but
not to go on with much more or
not to go on as the school goes
for the sake of the great as against
the more. I think it is a very big change
of kind and I must say I do not
like it but I am so the still
about you and I do not know of any
out of the interest and I will be
some of the great men to the
the school and the school and the

little one to give her to work, the old
to London for a day and I must
of course is plenty for me I hope
to you will say and do not ruin
him in sailing, I don't know what
effect it might have on him if
these people start I think that
would some time but I fear
they will not do it. As for the
the season, but his mind is
quently made up to it & I believe
and I wish it so delighted you
against him, add the school
of course seeing her now I think
is better than I do. It seems to me
not see her now. I think again for
I must say to the school without you
told me of him, I should not like
him either. I do not know much
if he is still living give all our
kind love to him and I pray God
to save his great sufferings, also
to give him and all that family
that are all well at London. But
I must say I am well again and
the need of better than I am old I am
now than before I feel to hear that
his case is so much better. I
do hope the will take care of her

My beloved Mary Ann

You will think of me as I began to think of you its a long time before you get a letter, but I hope you do hear of us now a little oftener than you used to - seeing we send many letters, I wish from my heart - the time was come when we could do all our writing by word of mouth for really writing letters seems now quite an undertaking for me, so I don't think that is a sign of my growing younger do you. Well dear I am happy to say your letter reached us safely and we were very pleased to see your handwriting once more and to know you and your dear husband were well. I most sincerely hope you are still enjoying perfect health and happiness also the darlings bless them. I hope little Herbert has quite recovered

(2) kiss them both for me tell Freddy I am glad he liked his jacket when I come I will bring him some thing else if he is a good Boy, Oh how I long to see them all, it is almost too much for me at times, but I try all I can to be patient and overcome my feelings, we cannot tell what the Lord do, but at present there seems no prospect of our coming out this year, Your Father never speaks of it and his ways do not show that he thinks of it but that we cannot of course tell, business matters now go on pretty smoothly, he pays for all as he has it so he is not worried to meat many bills as he used to be, but whether he is doing much good or not I know no more than you do his expenses are not heavy as regards housekeeping, it is a mighty change I don't know how to cook now, the Boy is out of his time so he still works for me but boards & lodges out of the house, and Willie has more money and goes home to his breakfast tea, so I have but the little one to give tea to now, we eat $\frac{1}{2}$ quarter loaf a day and $\frac{1}{2}$ quarter of potatoes is plenty for us 2 days so you will say we do not ruin him in eating, I don't know what effect

it might have on him if Jesse Savill starts I think that would rouse him but I fear they will not be able to go out this season, but his mind is firmly made up to it I believe and Prissy is so delighted you cannot think at the prospect of again seeing her dear mother & Brothers but she fears she shall not see her dear Father again poor man I fear so too from what you told us of him, I should dearly have liked to see him once more if he is still living give all our kind love to him and I pray God to ease his great sufferings, Mr. Hutchins gets on well again now, We rec'd a letter from dear old Emma how thankful I feel to hear that her knee is so much better, I do hope she will take care of her

(4) self, but she is too venturesome when she is able, I am also glad but I don't know why that she is not likely to marry the Doctor in fact I hope she will not be in too great a hurry to marry at all but look around her a bit first and have a good faithful man of God to lead her along in the right path. I feel very anxious about her poor girl, but you dear must be her mother, now for a time. I hope you are all happy in each others society and united, I am pleased to hear of dear James getting stout - E tells me his is, dear old boy how I do miss him of an evening, you assured me about the cat, I did not think you had cats I am very glad as I should say poor cats. I knew dear Mary Ann you would be pleased to have him there, I hope he is comfortable in his situation he did not say a great deal about it.

Your letter prepared me for the one I had from George respecting the death of their dear Baby, bless it. it was singular

(5) I have just read a letter from George the contents of which have caused my heart to rejoice. I do feel thankful that he is in better health & spirits - and I pray God he may continue so and all of them. Father appears much better satisfied now, tell him I will soon write to him, Also answer

dear Jesse's letter if I can, but I fear I don't know quite enough of short hand, I also got 3 papers from Carry, I really must say you are all dear good children to write so often to care our minds, God bless you one and all. I am surprised to hear that Bro. Webb has not had a letter from me but perk up he has before now. Eliza had posted one today to Emma and I have sent his 2 papers so I think between us you will get all the news.

I feel disappointed that
 I am not going to bring you this within
 of sending it, but we must do
 without a little longer, I was very
 much pleased with your interesting
 letter which I received with one from
 dear Emma, I began to think it long
 long before I had one. I was very
 glad you would think the same. I
 thought this and that I would
 to write to you this next month. I
 thought that I should like to know you
 all well and last week I got one from
 George and that he must go with
 Nell, my heart overflows with
 to my heavenly Father for his great love
 and toward you all my beloved child
 and I feel the blessed presence of God with
 us all. I am happy to tell you
 we all pretty well I suggest something
 from Phantasies but I suppose that
 is one of signs of approaching old age, and
 another thing I must tell you I have

[illegible]

I expect Frederick has got our letter long come home once for I am sure
before now and you will have had but the apparent quietness and assurance
of Willie leaving us there is not one for him to have or change as he does
of the old spaces now on the ship but himself as she thinks. It is not good
that Harper stays and it seems strange for young people to be too long in an
one every thing there has changed now place and your father could not sit
William with left us, I am glad to get as they waited him, that was to
the letter I don't see I cannot think give you all warm words and that
how it was he did not get it himself the best, he says he likes his Master
I hope as my fingers are getting on all and the work very well as present
right still as you think he gets any I hope he will and be all to do the
stranger I hope he does give him some but I cannot help feeling for him
how the time was not I hope he will be if he should do all I cannot imagine
black and I am afraid it was as some about the world now. Give my kind regards
respect that that he had better get to Oxford I hope he has plenty of work
with Henry because I know all he told him I was in hopes of seeing him
quick were opposed to it, and I had writing again telling the others
must say I don't think they were the house a garden one they need
at all suited to each other. I am glad I told you were improving
Henry does not say it is least good day I wish him I wish I could go and
live at home. I think his Mother got them I had not even seen one
a letter from her last week saying this year yet they say that Willie
she sent off to Willie's good day but he must finish this year and
now and he is very kindly and has had an apple for yesterday for the last
word he is gone and will only thank God with his friends for his health.

My Wedding day 29 yrs

My Beloved Mary Ann

I feel dissappointed then I am not going to bring you this instead of sending it, but we must - I suppose bear it a little longer, I was dear very much pleased with your interesting letter which I received with one from dear Emma, I began to think it very long before I had one from you and I expect you will think the same before you get this as I told Em I was going to write to you the next week. I was very thankful dear to know you were all well, and last week I got one from George in which he said you were all well, my heart overflows with gratitutde to my Heavenly Father for his great mercies towards you all my beloved children and I feel to bless & praise His Great & Holy name, I am happy to tell you we are all pretty well I suffer somewhat from Rheumatics but I suppose this is one of signs of approaching old age another thing I must tell you

(2) I expect James has got our letter long before now and you will have heard of Willie leaving us. there is not one of the old faces now on the shop but old Hope, doesn't it seem strange how everything here has changed since William Webb left us, I am glad G got the letter I sent Wm. I cannot think how it was he did not get it himself. I hope dear Jimpse is getting on all right - still do you think he gets any stronger I hope he does give my fond love to him and I hope he will be blessed & prospered. I was in some respects glad that he had broken off with Carry because I know all her friends were opposed to it, and I must say I don't think they were at all suited to each other, I am glad Carry does not lay it to heart give my kind love to her, her mother got a letter from her last week which she sent off to Willie poor old woman she is very lonely indeed now he is gone and will only

(3) - come home once in 2 or 3 weeks but she appeared quite as anxious for him to have a change as he did himself, as she thinks it is not good for young people to be too long in one place, and your Father could not do as they wanted him, that was to give Wm all women work and that the best, he says he likes his Master and the work very well at present I hope he will and be able to do better but I cannot help feeling for Sis W - if she should be ill I cannot imagine what she will do, Give my kind love to Alfred I hope he has plenty of work tell him I was in hopes of seeing him hand writing again telling me how the house & garden are progressing J told me you were preserving strawberries I wish I could get at them I have not even seen one this year yet, they say there will not be much fruit this year, we had an apple pie yesterday, for the 1st thank God the prospect for harvest

(4) is most beautiful the corn look lovely bread is now 6^s the quarters meat chees & butter are very dear,

I had a letter last week from the Crowes poor old Aunt is very sadly and Jane is not at all well, I expect her down here soon they all desire thier kind love to you all, Give our kindest love to George tell him I will answer his letter this week perhaps tomorrow but I shall send this off as I think its great time I did, altho I know you all hear of us by each others letters still I like to write to each and don't feel satisfied if I don't hear from each one, but I have no reason to complain you have all been very kindly to all who enquire after me names I cannot pretend to mention. I am very pleased to hear of Ellen's recovery and M.A.s marriage, give my love to them both, I will now close dear with fondest love to you Alfred & the dear ones all ever praying

(Cross writing) God to bless you with every blessing and hasten the time

when we may again see & embrace each other. I remain your affectionate
Mother

M A Savill

Give my kind love to Sister Tame & family I forgot to give Father & Elisas
love tell dear Jessie I had the letter she wrote me and she must write again
(there must be a page missing . The following sheets are part of this same
letter)

(5) not found anyone close enough to repair my bellows yet, but when I come
I hope to have breath enough to climb the hill to your home, Emma & James
I think take after me for breath and Elisa too I often think she is worse
than me when we are out walking together, I am nearly alone today. I have
Jessie Savill from Harlow here Father has gone to London there being an
excursion train you will say Father is doing the grand when I tell you he
went with Elisa to Harwick last Monday and on Friday he went to Yarmouth
and at Whitsuntide 3 days to Colchester so I think he must not grumble what
say you, E went to Harlow on Friday, and stayed till this morning and went
from there to Cambridge where she will stay till next Monday with one of my
cousins whose daughter has been staying with us a month. I am happy to tell
you the Harlow folks well and say they never felt so happy in their lives as
they do now, I firmly

(6) believe they have embraced the gospel from a love of the truth, Jessie
is doing all in his power to get out but he cannot accomplish it this year
and I think I may now safely say it is a settled thing that we are to stay
another year, I had hoped not but perhaps its all for the best as George is
rather unsettled this year it might upset Father and dishearten him not
understanding the principles We are my dear Girl in the hands of a wise and
kind God who will work all things right for us in his own way & time, if we
only put our trust in Him, which I wish to do, but one thing I will tell you

that is if I only had a few days notice I could be ready for I all the time feel like being prepared. If we stay till next year E would be able to pay her own way if she is successful & careful, she has had a great falling off in her school the last 2 months so many of the poor things having the whooping cough badly its astonishing how many children

(7) are suffering from it. poor little things I hope dear you will send me the portraits of your darlings in your next letter as I long to see thier dear faces Kiss them for me and ask Freddy what I shall bring him when I come, I expect his popgun flute is done for by this time how did he like his ball and dear little Herbert, you are right in your remark I shall have quite a number to share my love, but I hope to have wisdom given me that I may show no more to one than another, you are all my dearly beloved children and I'm sure I could not say which I love most. I am glad to know that yours & Georges are playfellows as I should like them to grow up with love to each other oh what would I give this moment to have one peep at them the dear little innocent lambs. What a sight that must have been on the 4th to see all those 3,000 children

You want to know what I think about Emma marrying. I can tell you dear it took quite a load off my mind to hear of it, I think it the very best thing she could do, and I am thankful to hear they are so comfortable & happy I expect poor old girl she wishes I was there now doesn't she, if she doesn't I do, Give my fondest love to them and to Sis B. I hope they are all happy together, and don't forget G.B. & his wife. we have had 2 visits from Bro Handie who is well acquainted with them, he is leaving England on the 25 of this month, he appears a very nice young man, he came last Wednesday with Bro Howard Spencer who is appointed to travel in this district. he is the first I have met with who knows Alfred Bro Clawson sailed on the 28th of

July so he will I expect be home before you get this letter, he promised me to see you all if posible, I am sorry he is gone in one way as Father appeared to take to him, Bro Spencer was only 16 days coming from the valley thats quick travelling, you might almost come and spend a day with us now

(1) the Mormons she thinks she has suffered quite enough thro them. She passed me sometimes twice a day to the pump but she has never spoken and of course I shall not force my conversation Please give my kind love to Sister S. and all her family also Bro & Sis Brazier & family Bro & Sis Lindsay & Hardy and all who enquire after me I hope they are all well & happy God bless them. I long to see them one & all, Father myself and James went one Sunday to see Priscella and last Sunday She & WS came over here and had tea with us they are all well at present and desire me to send lots of love to all their loved ones also to you and yours. I do not think she will write to her Mother just yet, she will want a short time longer as she will have a little more news to send about the middle of next month can you guess, poor girl she does

(2) wish some of them would write to her she does feel it so very much because she says there are so many of them there that one or the other might write a few lines, she cried when she saw your portrait She thinks your a dear excellent and when I read the part of your letter alluding to Georges wife and you being so comfortable together she was so pleased to hear that, we both wished we could just drop in on you unawares, Well my dear I hope you have received your little parcel safely before this and that its contents though not worth much may prove useful to you I wish I could have sent you much more but I trust I may have the opportunity next year Give all our kind regards to Bro. G. Lims tell him we very often speak of him, next Sunday is our last in the poor old meeting room and we cannot get another at present I don't know how we are going to manage yet, the people are rejoicing. I suppose they imagine that Mormonism will be anihalated but they forget that the Lord still lives, oh how blind are the people to the signs of the

times. truly this is

(3) the hour of Gods judgements we can see it daily, I hope my dear children that you get the papers I sent you I seldom miss a week sending you 2 Cassells and a newspaper for Alfred. if you receive them you will see what a sad defense there is among the cattle its fearful meat is now very dear beef steak 1^s per lb

Sept 2

I could not finish this when I began so I have now a little more news for you though it is not of the most cheering kind. in the first place I had the misfortune to hurt my back lifting a washtub and bath Friday week I went to sit up with poor old Billy Cornwell and I suppose I forgot my back for I got off my

(4) chair to cross the room when I fell down and sprained my ankle very badly so I have had a week in bed but thank God it is much better and so is my back but still very weak

You will be surprised and so will Bro Brazier to hear that poor old Billy is dead he was ill only a weak to lay up he had been poorly 2 or 3 days but after he took to his bed he never took any notice of his affairs in any shape, it has caused quite a sensation in the town it was Gastric fever it is a house of sorrow indeed poor Wm I think most about on account of his bad health I cannot think what he will do poor fellow. He is to be buried on Monday. Old Mr. Summers is with

abt. 1870

(first 4 pages missing...also chewed by mice)

(5) that we had last, but you see we have (missing)d a good excuse, for the house (missing)s been pulled about so. Christy hopes to finish it next week. Then (missing)ere will be neither paint or paper any where & we all say we won't buy either. I shall white wash my room, it will do well enough for me - as long as its clean. Perhaps if we laid out a lot of money on it we should have to leave it, no one kn(missing) how soon & then what would be the (missing)? I consider its his place to paint (missing) paper his own house, its quite enough (missing) us to have extra rent to pay without (missing)ing out money on it for some (missing) who may come after us & we are all agreed on that point - if he g(missing) paint then all right - if he does (missing) then he'll find none on. We've (missing) little spare bedroom now, which we shall find very handy when either of the brethren come round, but then we want furniture for it. We have a nice little pantry near the back door & thats handy too.

Well dear Mary Ann, I only thought of writing a few lines & here I am.

(6) onto the 2nd sheet of paper. I must tell you that Charlie Nelson (missing) family all except one reached Canada safely. The dear little baby was very sadly when they (missing) on board, & he died soon after. it was a great trial to them both. The two little girls had hooping cough all the way. he was lucky enough to get employment directly he got there. Uncle John has'nt heard but Sarah wrote to her sister Ellen. We never hear about Uncle William Maria - nor yet the Crowe's - its true we seldom write to them, & when we do sometimes they don't answer. Tell James that Ellen quite expected a few lines from him. she is still (missing)hamston - we were so glad to get a few lines from him, dear old boy. I wish he could write oftener. Mother

talks of sending a few lines in this (missing) I don't expect she will have time to write it. Emma owes me a letter. I will write to one of you again very shortly but I am anxious to send this off directly so that you get it before the brethren

(7) set in - I expect you know Bro Tuddenham he knows Alfred well. We had Bro Neslen round a few weeks ago & he knew all your faces well especially James & Emma. The former waited upon him just before he left & he particularly noticed Emma in G Braziers stores. I suppose he admired her as most of the chaps used to do. (but don't tell her) I think he will travel round here but I'm not quite certain. he seems quite a delicate man & so cut up by the death of his wife. The weather (missing) grand here now & every thing (missing) the fields look lovely. The (missing)ther bed soldiers" are going to (missing)morrow - for their 10 days ha(missing) poor fellows you should see what they have to put up with. I wish we could tell you that we are coming out this year but I cannot (missing) must "bide our time". I think (missing)at a great many will be dissapointed this year for the journey ~~£~~16-6 & it takes a good bit to save up that amount. if it had only cost about ~~£~~ 12 then perhaps like

(8) a good many more I might have managed it - but then how could I leave dear Mother behind? (missing) you think dear Mary Ann that it (missing) be right for me to do so? some say one thing some another but I hope from my heart that we shall all go together. I must leave off scribbling (missing) I shall now get it posted. Father is not at all busy at present but he is quite well. Mother ha(missing) a dreadful toothache occasionally but she is as jolly as ever. Write to us directly you get your tiny (missing) for we shall be anxious to know (missing) they reach you safely. Dear Mother sends you her kind love & hopes (missing) are all quite well. Our love to Alfred George, Ellen, Carry, Emma, Charles, James & all the "little people", we hope

they will all be satisfied with what's (missing) we really could not get them what w(missing) should have liked - so these (missing) suffice. Good bye dear girl. accept my best love, & believe me ever your devoted sister Eliza.

I have written quite a sermon this time- so don't laugh at this or I'll come & speak instead of writing.

you will be a help & comfort to each other.
Give me best love to sister and tell her
I am glad to hear her is getting along
so well with her home as I hope he
will build it large enough & will
write to him often well, but we
get one from my letter we look
forward to best, perhaps he had not got
it yet. Your mother give my kind love
to her. I hope you feel just the same
& happy as I and children here
shall be as the home of parents getting yet
better. I shall agree to Mr. W. when
he can spare half hour I will
expect they will give forget me I talk
about you all every day. You say best
brother Alfred I am happy to bid you
is well and most able at it. I am
for writing to me, also to father & I am
I am very glad to hear they are well
and that you are meeting Emma's friends
happy to see me I expect with it. And
that if you can you could not think of
that me. I hope you will get a good thing
that I am to forget she has a Mother
who are well & glad to hear I am very glad
to hear that James had employment
and is looking well & I must expect
him to write often as he has so little
time on his hands, but I will write
at all the every week to you some
times. I hope the children are well
that he is glad for me. I am
very much pleased to hear as often as I can

I hope some one
will write to me
as soon as you are
able.

My Beloved Child

I embrace the joy of
this afternoon to receive your most
welcome letter. When I wrote yesterday
morning my first thought was with
you my beloved children all around
me. I felt so earnestly not to lose
that which might be the last year
of separation and thought if I could
but have a letter from some of you
it would be the most acceptable.
Now your gift I could have, but
the first brought me one from
my youngest daughter when he said
that the 2nd best brought me one from
my eldest daughter which made my
heart rejoice to hear that you were
all well and the B & V others &
precious boys. Bless them dear Paul
your boys I do wish I could get at
them I like it very much indeed but
like you I think about it would look
best & something how well brother
stands I feel pleased with them
rather than they are I am looking
childish I think brother Howard
I see now I want George & his 2 -

[illegible]

20th Nov. I have not been out of
to sleep after this second day of
your return this is no longer the case
but smiling and one thing is certain
I have never been so comfortable in bed
and it seems to me as though I shall
be glad when I have more with me but
that I expect there will be some more
days. However, when I get over the
my time will not be so much as
with my own affairs as you have been
that I shall have no time to spare to
spend with you, however, you will
I am separated to the north of it so far
and it will take some time to reach
all that has occurred in that time
I hope before this comes you will
be going through your trouble and
even little girl arrived for that you
to play with, I am not sorry I was
told about it, I am as you know
I cannot help feeling however, that
if the same thing had to be done
with strong faith in the power of
kind God who has helped you in the
past and feel sure that He will help
you now, and I am sure He will
assist you, you may well say now
you shall soon begin to think to
see, I am not sure one, I think
you have proved that long ago I shall
glad that I am living over your hope

My beloved child

I embrace the quiet of this afternoon to answer your most welcome letter, when I woke yesterday morning my first thoughts were with you my beloved children all absent and I felt to earnestly ask the Lord that this might be the last year of separation and I thought if I can't but have a letter from some of you it would be the most acceptable New Years gift I could have, well the 1st post brought me one from my youngest daughter when lo and behold the 2nd post brought one from my Eldest Daughter, which made my heart rejoice to hear that you were all well, and the CDV - of those 2 previous Boys, bless their dear fat faces how I do wish I could get at them. I like it very much dear but like you I think dear H would look best standing, how well Freddy stood, I do feel pleased with them Father says they are 2 nice looking children he thinks Freddy favors Jessie, Now I want George & his 2

(2) but I know he cannot have much cash to spare yet for portrait taking I expect they are dear there are they sent I am thankful to say we are all pretty wee, I have been very poorly but am now much better, the weather has been very charyable, so much wet unreasonable weather that nearly everyone have been suffering more or less from severe colds, you wondered my dear girl what we were doing at Christmas, well I will tell you, Elisa went to Cambridge on the friday, and your Father & I went on Saturday morning and stayed till Monday night as the shops were all closed on Monday. We spent a quiet but very comfortable time, my cousin Mrs Starling did all in her power to make us comfortable. Elisa stayed till the following Saturday then went to Henlow and staid there till Monday, so I think we did very well don't you, I can tell you my thoughts very often travelled to Utah and I wondered what you were all doing, and the silent tear would fall in spite of me, I sincerely hope you all enjoyed yourselves better this year than last, and

I do hope this is the last Xmas we shall be seperated

(3) 9th

You see dear I have not done anything to this letter since last Sunday, for you know this is a busy time for me bill writing and one thing or another I have missed George in the books and it seems to worry me so much I should be glad when I have done with it, but then I expect there will be something else, However when I get over there I hope my time will not be so much occupied with my own affairs as you remark dear that I shall have no time to spare to spend with you, because you & I have 9 yrs seperation to make up if no longer and it will take some time to relate all that has occured in that time. I hope before this reaches you, you will be safely through your trouble and a dear little girl arrived for those dear Boys to play with, I am not sorry I was told about it, of course as your Mother I cannot help feeling anxious, but at the same time I feel to place you with strong faith in the hands of that kind God who has helped you in the past, and feel sure that He will help you now, and may well say dear you shall soon begin to think to can manage without me, I think you have proved that long ago, I feel glad that G. is living near you I hope

(4) you will be a help & comfort to each other, give my best love to him and tell him I am pleased to hear he is getting along so well with his home etc, I hope he will build it large enough, I will write to him next week, but we do not owe him any letters we both answered his last, perhaps, he had not got it when you wrote, give my kind love to Ellen I hope poor old girl she is well & happy, also the 2 dear children how glad I was to hear of Ernest getting fat I expect I shall scarcely know them. does dear Jessie talk about us now, I expect they will quite forget us. I talk about you all every day.

Give my best love to Alfred I am happy to hear he is well, and much obliged to him for writing to me, also to James & Emma, I was very glad to hear they were well, you did not mention Emma's knee. I hope she does not

suffer with it now, but of course you could not think of everything, and now she best get a good husband, she seems to forget she has a mother who does not forget her. I am very pleased to hear that James has employment and is looking well, I cannot expect him to write often and he has so little time on his hands, but I am selfish and a letter every week from some of you my beloved children would not be too much for me however, I am very thankful to hear as often as I do.

(5) You wished me dear to tell you what your Father said to the portraits, he looked at them sometime, I said what do you think of them, he said I think they are 2 very nice looking children. He think Freddy very much like Jessie so do I - is he, how do they agree, do they go to school, I hope so, I think like you that E. must keep school when she gets there that is if she does not grow tired of it, She is almost now sometimes, but I don't know what she could do easier it is not quite 5 hours a day, and the rest of the time her own, but I expect when she gets there she will catch the matrimonial fever very soon, I am sure I cannot tell you who is the favored suitor, I tell her it will be some old chap with 1 or 2 before her I can tell you she is quite a favorite with the Bretheren, Bro. Garratt came to see us once with Bro Spencer, he knew your portrait in a minute, we are not likely to see him again as his district is so far from this, Bro S. is a nice quiet humble man, he always seems so happy when he comes here, if you know his wife, tell her he is looking remarkably well, Give our love to Bro Clawson, ans all who know us, I should at any time be pleased to hear from Mrs. Clawson.

(6) I am glad you got the book, I have sent them a pr of gloves each since then which I hope you got all right, I have a pr for you and Emma but I feel almost afraid to chance them in a paper, I sent Ellen a pr I hope she got them, I think E. told you that Elisa Johnson was very ill she died poor girl the friday before Xmas there was a great fuss made, her funeral sermon

was preached by Mr. Cuthbertson the Independent Minister, and it was advertised, I never heard such a thing in my life before, She wished a bible and hymn book to be given to all the scholars in her class, with her name written in,

How sorry I am to hear of poor Harriet, give my love to her, also Sis. Sanders and all the family, tell them Mr. L & Annie are well, I see them at the pump most pt day but they never speak.

Don't forget my kind love to Sis Brazier, tell her I think she is a very useful person now, taking care of people's children. I am glad she is able to do something for herself, it is much more comfortable than being dependant on any body, I hope God will continue to bless her with health & strength also Charlie I am glad to hear he is better again of that nasty complaint. I shall be very pleased to see his portrait also his hand writing, I do see the poor old Donkey

(7) & cart every day, and it makes me think of him,

I had a letter the other day from Somerstown, they are awfully offended at my going to Cambridge, but I cannot help it, I certainly could not have had them all here as I had last year, Aunt is very sadly and so is Jane, but I told her mother not to mention her name to me at all, so you see I have done a pretty thing for myself now haven't I.

Uncle John & family are well in health, but I am sorry to say not in circumstances he is quite the old man and gets nothing at all to do sometimes for weeks, I cannot think how they live at all, trade in London is dreadful Charley Nelson is forced to leave his house he has made his mind up to go to Canada early in the spring, Wm & Marion are still at Colechester he does no work, a great fat lasy fellow, they desire thier kind love to you all, Father has been very busy lately but it is now falling off considerably, he never mentions a word about leaving England, I don't believe he intends it if he did he certainly would say something about it, but lately his temper has

been almost unbearable, he is a good deal worried with the work and having no management in him makes it so much worse for him and all around him.

Sis Blake's is very sadly poor old lady she sends her love to you all, Sis Westwood & Willie also, W came to see us after Xmas he looks very thin & poorly, the poor old lady frets very much, about her children she is so much alone now, and quite makes her mind up she should never be able to take the journey, even if she gets the opportunity. I am glad to tell you she has received a letter from Caroline and one from Mary Ann I see by this weeks Star that the postage to America is reduced to 3^d but I don't know till I go to the post office with this, I hope it is so, I find I have to tel you twice over what Father said to the portraits, but you must excuse it for I really am almost gone at times , I must draw to a close dear or I shall make another week of it, give my love to all especially friends names are too numerous to mention, don't forget Alfreds Mother, & Sisters, I hope they are all well, I am very glad to hear James is not in a hurry to get married, no one told me he was, but I fancied it might be so, I hope he will be blessed with health & employment to enable him to eat the bread of independence, You see I still retain my independent spirit,

(turn cross writing) I will now conclude with best & fondest of love to you my dearly beloved children all in which Father & Elisa joins & from your affectionate mother

M A Savill

Kiss the dear Children for me tell them I will bring them some pretty things when I come I think I will put your gloves in this letter I like the style of Freddies dress very much

I wish you all a happy New Year God bless you all

My Beloved Mary Ann

With pleasure I take this opportunity of writing you a few lines to congratulate you on your recovery. How thankful I feel to Almighty God for his great mercy in restoring you again to health & strength. I received a letter from Emma yesterday the 27th and a few lines enclosed from James. how glad I was to see his handwriting once more though only a few lines, I do think so much about him. I hope he does not have to work beyond his strength. he does not complain to me but (missing) he is very comfortable, I hope he is (missing) I was pleased to hear you were (missing) well and poor dear Charley better (missing) Pray God he may continue to g(missing) strength, Well dear I must say you (missing) an obedient daughter. I told you to (missing) a girl, and so you have, no one had sent us word what her name is, but I hope there is a letter on the road from you, you see I am never satisfied and expect never shall be until I am with you all, I often wonder

(2) if I shall be then, I expect there will be some thing wrong then at times but at any rate I am willing to try it, and don't care how soon I am happy to say we are all pretty well except colds, the weather here continues very cold. we have had a long cold winter. Trade of every description is very dull indeed, every body complaining sadly, the distress in London is frightful, your cousin Nelson & family with Susan Savill sail for Canada on Saturday next the 2nd of April. Your Uncle John was here last week. he is quite the old man, and very bad off indeed, he gets no work, your father let him have some money to pay his rent or he would have been turned out of his house last week, poor things they feel very bad (missing)nt their children leaving them (missing)chls (Charles) says it is useless stoping

(missing) and no prospect of things being better. I hope he will succeed for he is a deserving fellow, they all send their love to you all, I hope you got the letter I sent sent you on the 13th of January. I have sent one to George since that which of course you have seen if he got it but there appears to be great complaint about postal matters, So I always feel (missing) lest letters should get lost

(3) but I think we have been very for(missing) none appear to have been lost but Bro Webbs, I have had none from him, your Father seems to think that is very strange he often speaks of it, poor man he is sadly put out about the Cullom bill especially since Saturday's paper came, and we see by that it has passed the house I believe it worries him very much I read him a letter in the Star from E Morris yesterday, he says he does not think any body loses thier sleep over there about it, and we here need not fret about it, but we cannot help thinking a good deal (missing) it, however I pray continually (missing) the Lord will bless & preserve his (missing) and over ride all things for thier (missing) fare, I wish I was with you all (missing) it is not so bad to know a thin(missing) it is to be always wonder-ing (missing) things are going on, I do hope my (missing) ones you will not neglect writing (missing) us as often as possible. I wish I (missing) send you all some money, or stamps for postage, but its a comfort to know the postage is reduced to 3^d I was

(4) (missing) sorry to hear trade is so dull over there, also money. I hope things will brighten up soon, how is Alfred off for work. Give my kind love to him and I hope he will like the tie I have sent him but tell him he does not deserve it because he never writes me a line, I get the papers from you dear Polly and thank you very much for them, I send them to Harlow. Jesse is very fond of them, I hope you get what I send. how do you like Cassell's now, I don't like ti at all, Elisa was at Harlow on Saturday and came back this morning Monday, they are all well & send thier best

love to thier mother & all (missing) is trying his utmost to get (missing)ay this year, I see no prospect (missing) our coming at present, Father does (missing) say a word about it at all now. I (missing)k he would be afraid for he appears (missing) think what Brett told him will be (missing) to take place now, that the Saints (missing)l be driven again and that before (missing) he now thinks worse than ever (missing) polygamy, Elmer thinks of going to London Conference next Saturday if alls well, we shall then perhaps hear something, I find your Conference is put off

(5) How are the dear Boys, what do the(missing) say to thier Sister, kiss them for (missing) bless them I often look at thier dear faces, also Jessy & Ernest, but I expect I shall scarcely know them all, but you must not prepare too many before I come or I fear some will have to go short is our silver coins any use with you tell me when you write, Give our kindest love to G, E, E, C, James, and all who enquire after us not forgetting your Mother & family, I cannot mention all thier names but omit none, if you see Sis Sanders give my love to her. tell her she shall have a letter from me before many days, I h(missing) they are all well, Sis Westwood (missing) desire thier love to all, you kno(missing) this time that Wm is back wi(missing) again, I have been to see Sis W(missing) this evening she is not very well (missing) cold weather takes hold of her (missing) she keeps doing a little work still (missing) I cannot think of any particular n(missing) to send you, having written so lately to you all has exhausted my stock Elisa posted one to Emma last week

(6) (missing) George, that Ralph Franklin (missing) made a smash for about 400 (missing) never heard a worse case of (looks like "swiss bug") in my life, there are 5' 2^s creditors, ours is £4" 2^o we had put it in the County Court, which cost us 5¹ and there will not be scarcely 1' in the £ for anybody his furniture is to sold next Monday. I have got 3 summons for people and expect I shall have to go to the court myself next Wednesday as your

Father does not like and they have told him I can do it. I cannot think what ever would become of him poor fellow if (missing) was to leave him. Tuesday 29th (missing) had a letter this morning (missing) Aunt Crowe poor old soul she has (missing) laid up a month but is able to (missing) up now a little, She has nothing (missing) troubles, she sends her kind love (missing)n all, If none of us come out (missing) year which at present there appears no prospect of, I will try to send a parcel but the worst of it is I could not send without making a large one, and nobody can undertake that, I don't at

(7) present know of any one going (missing) less Bro Shurtleff does, Elisa (missing) hear when she goes to Conference I have a white woollen fall for my new grand daughter but I can't put it in this letter as I feel I must send Alfred his tie, as well as my other boys, or he will feel yellow I bought the 4 intending them for Christmas boxes, but they must be April boxes, or at least Alfreds must, Christy's desire thier love to you all, you cannot think what large people they are getting they have to day (missing) to build 4 new rooms to thier house and dig out a cellar so you may fancy what (missing) they have made us, but of (missing) that's of no consequence, we (missing) poor folks, such is life, I espect (missing) are all getting busy in your (missing) now, I wish I could walk in and (missing) some of your good things, but I must wait a little longer, I must now begin to draw to a close or it will not get finished to night, I hope you will write now, as I feel anxious about

(8) (missing) all, Give my fondest love to one and all my dear ones, and may God bless you all with every blessing, & preserve you in peace is the constant prayer of your affectionate Mother

M.A. Savill

(there was a P.S. but it was all crossed out)

My dear Mary Ann

I thought I would just fill this little bit of spare paper up, by telling you how very pleased I am to hear that you are getting strong again & that your dear little daughter is quite well, (missing) must soon write & tell us what name (missing) have given her & all about it as (missing) only a few lines I cannot say (missing) now but will write to you before (missing) my scholars take up the whole (missing) but of course when they leave at 4 (missing) time is my own, you won't disbelieve (missing) when I say that I am glad to see thier little backs - well now dear good bye, I am wondering when I shall see all my little nephews & neices not for a long time I am afraid - my kind love to all the folks - accept the same yourself from your loving Eliza.

^{34 cont}
I have not heard of the Colchester
folks for months. there is but
little good news from Hunsdon
and the Somers town folks are
dreadfully offended with me
I cannot send you any news of
any of them. Sir Blackes is about
as usual, she is always very
pleased to hear of you all, send
her love, also Sir Westwood she is
pretty well and so is Mr W. and
William, I enquire after him but
I have not been down Rye St for
weeks, I get no opportunity in the
week and Sunday evenings Father
does not like it if I don't go for
a little walk with him, so I go
to see no one unless I am compelled
to go either on business or sickness
from little women I don't say she
thinks me unkind but I'm
sure it is not from any feeling
of that kind that I don't go. I
have had some better luck
I posted one to her on the 8th of Sept
I sent one to her one last week
I will write to her again soon
I enjoyed last week there was a
most beautiful display of Northern
lights the white sky as far as one
could see for about 1/2 an hour looks

London, I thought it a most grand
drawing sight, the generosity of
the people felt wonderful and
think it a sign of coming time
when surely men's hearts are not
failing them for fear of what
they know not, I am glad to
find you are not more weary
over there, the frequency of editorial
in this week's Star is rather
less than Scappon's less, say he writes
he was there but I don't think
Penny comes much about. Being
in a hurry but I hope it will be
like the Sullown told me, he seems
to be coming where. With my best
love I think I will close now
and write again in a little time
as I am very much long to hear
I am glad he has had some chat
with the Briton, remember me
ever kindly to think all, tell
Bob Romney, I hope some day to
reply him what the President
has said all the dear children
as much as you like for me
and ask Robert to send you the
same and let it know of my
accounts

My Beloved Mary Ann

It seems a long time since I wrote a letter to you but I should have done so before now if Elisa had not, if I had not that excuse I don't what other I should find, Well my dear girl I hope & trust this will find you with your dear husband & children also in the enjoyment of perfect health & prosperity, also all the rest of my loved ones, oh that I could see you all or some of you this evening instead of writing & thinking of you all, but its useless wishing, I must wait it appears 24th You will see when I began this letter and have never touched it since, I got my feelings so worked up that I could not write any more and so it is the cause allways when I attempt writing to any of you but I feel today that I must over come that feeling and finish it; I am thankful to say we are all well, Elisa has a bad thumb it is gathering and very painful it makes her miserable because being

(2) her right hand she cannot work or write and that does not suit her at all I assure you, I have this morning had a letter from George telling me of the arrival of the little stranger at Emma's Oh how thankful I felt to hear they are well, I got a paper or rather 2 from G. last week also one from you, I felt certain when I saw G's that it contained some word of interest and so it proved for I found a few words telling me of the arrival and that made me more anxious for a letter, I hope please God she will get along better, was you with her dear I suppose Sister Dall has nursed her (missing), had a letter from Emma on the 17th she mentioned Sis D being there when you see her give my love to her poor woman how is it she is in the city.

I am glad you received your parcels all safe I could not send you half that I should have liked on account of the weight, but I hope to

bring those dear children something better before another 10 yrs pass away Oh my dear girl when I think of that I wonder how I have borne it so long. I am very pleased to hear of Georges getting on so well, I hope you are all doing as well, how is poor dear James

(3) getting along, I hear but very little about him, E said in her letter he was not very well and looks thin & pale, I hope & trust it will please God to bless him with health. I hope dear Mary Ann to soon have a letter from you and that you will tell me all you can about him for I cannot help feeling anxious about him, Give my fond love to him. I was very pleased with his Photo, but I think him altered very much other people do not see it, Bro Neslen was here last week I am happy to say he is improved in health but still looks very ill, do his family live near you if so tell them not to neglect writing to him every week, for I never saw a man so anxious about his family and he has not heard from them for 3 weeks. I can tell you he is in a state about it. like all the others he is fond of coming to our house, he says it appears like a home to him, he is a very nice man I think, In your last letter to me you said you did not know I had any relations in Cambridge. I expect you forgot as I think you must have heard me speak of them for many years until I went to Cambridge with poor Emma, I went a fortnight ago to see them poor Mrs Sta(missing) has a dreadful cancer in her breast. she wants to be operated on but her husband is so much opposed to it (missing) man he does fret so much about (missing)

(4) she is a very nice woman I am very grieved for her, I must tell you I have been very unhappy lately. thinking of you all, with the prospect of trouble before you, G. did not mention it in his letter, and today Bro Neslen sent us 2 papers with the letter in from Groseband which I think is very good and I pray God it may have a good effect. I feel that this a most trying time just now for the church. I trust that we may all so order our

lives before our God that our prayers may be accepted of Him and that He will over rule all things for the good of His people. I don't know I shall do if war should break out among you. I feel that I should not care half as much if I was there to know I share all things with you my dear ones, I keep wondering, how things will turn out in November at the drill. pray some of you let me know. but I will try my best to keep calm on the matter and trust to the Lord to bless & protect you all & all his faithful Saints.

I did not forget the 2 dear children on thier Birthday bless them, I wondered what they were doing, I hope they are good children, send me word how the boys liked thier marbles, can you get such things there or not, I want to send them something next year if I get a chance.

(5) I have not heard of the Colchester folks for months. there is but little good news from Hunsdon and the Somerstown folks are dreadfully offend-
ed with me so I cannot send you any news of any of them. Sis Blakes is about as usual, she is always very pleased to hear of you all, sends her love, also Sis Westwood she is pretty well and so is Mr W and William, I enquire after him but I have not been down Rye St for weeks, I get no opportunity in the week, and Sundays evening Father does not like it if I don't go for a little walk with him, so I go to see no one unless I am compelled to go either on business or sickness. Poor little woman I dare say she thinks me unkind but I'm sure it is not from any feeling of that kind that I don't go, I expect Emma has had my letter long ago. I posted one to her on the 8th of Sept. E sent one her one last week I will write to her again soon, 2 evenings last week there was a most beautiful display of Northern lights. The whole sky as far as we could see for about $\frac{1}{2}$ an hour (6) looked like blood, I thought it a most grand sublime sight, the generality

of people here felt alarmed and think it a sign of coming trouble, surely men's hearts are now failing them for fear of what they know not, I am glad to find you are not more uneasy over there, Bro Jacques's editorial in this weeks Star is rather hot on poor Shaffer, Jesse says he wishes he was there but I don't think Prissy cares much about being in to fuss, but I hope it will be like the Bullom bill ec, be blown to nobody cares where.

Well my dear girl I think I will close now and write again a little sooner, Give my kind love to Alfred I am glad he has had some chat with the Brethren, remember me very kindly to them all, tell Bro Romney I hope some day to repay him what the pencil cost him.

Kiss all the dear children as much as you like for me and ask Alfred to serve you the same, and set it down to my account.

(7) Elisa has just gone with some young folks to a concert at the barn Exchange she desires her kind love to all and accept mine, my dear girl, may God bless you one & all is the prayer of your mother.

Remember me kindly to your mother Tame and all inquiring friends. Don't forget Carrie I was rather surprised to hear she was nursing Emma. She really is a good girl, give my love to her and tell her if she will wait till I come I will do as much for her.

and since I heard a
 sign in Antigonish & I don't
 trouble them with any letters
 perhaps I may write to you & tell them
 if you ever would. One will just be
 surprised to hear from Mrs. Waterman
 is expected to be all every time. She is
 just in from Antigonish. I hope Marion
 Owen will get all right. She is now
 better. I wish to see her when she
 next comes. I have better like the
 thing of a school. I am again disappointed
 the little sorrow often comes to one
 don't want to chat but the first
 of a disruption. Be a school for
 me very good advice in saying "I
 am a little don't look at severity."
 He had been down here last week.
 He still looks very bad but a very
 little better. He has passed a good
 number of times over. He is always talking
 about his little children & is often seen
 in his eye. I know he is going to
 his grave. Don't be angry at
 me my dear father. I shall
 keep myself free until it is
 over. Don't let it go.

than P. it is best to
at home than

fighting when I get there. Tell him
I expect to do something very
big when I do move. People
that want to be generally do

I am an old woman for
really I can't believe I am as old
I don't let forgotten don't you pity
my case. But my mother is still
in a "Desperate" state. Christy she
tells me how delightful it is to be
around to have a nice old man & all
of what is heard. But in the end dear
Mother you are forever come to you all.
I'm glad you like the letter from P.

I am very much interested in your little
daughter & her friends. I hope if you have any
more news about her to Christy & Sister P.
I am all right. I don't forget the
people I want to see you for my
happiness. I shall be
in the city every day. I am
wondering when I shall write to
you all.

My Dear Mary Ann

It is nearly 4 years
since I wrote to you, & yet I have
received no answer, true I have
heard many times one or other of you
but as I have used to say that is not
like receiving a letter directly from your
own dear self so I just send off a few
hasty lines to remind you, that perhaps
I may have more success, you or any of you
than the chance is for I am pleased
to say, that there will be a precious
few more letters pass between the father
& those who once had that warm one
the "Bond" now don't know you well up
with the idea that we have really been
parting. It isn't quite correct that
But Father has said candidly that his
mind is made up not to open another
winter here, & that he will leave us
so all his affairs can be settled up.
And I say that this has to be

I have been in a world of trouble
about for some time, which was quite
gripping upon brother's and sister's
nerves & nerves, now the clouds
seem to be lifting up, for there is a
great formal separation to be made at
least I think. Now in the same mind
brother would you be ready this as quick
as possible, that is, don't let it come
back here just yet for brother thought
it might require him, or present it
settling in his debt if it was known as
very before hand, of course you understand
what I mean. I have been constantly
wondering to tell you this since, for you
you are so good & calm & calm & calm
would you to write back & write, you'll
find it all as whether there is any part
outside you want from here, in fact
this is the last thing we shall write
or what presents the 4 big boys, the old
boys I mean would like, (they depend on
it so as to be able to find upon doing
things to please them if they could
only wear plays, or even, that place, which
or play with dolls & needles, we could

now that's that seems quite well
of our five. We had the pleasure
of reading a letter from Mary & sister
brother last week & were glad that
at the time of writing James was
was improving it seems a pretty big
thing to say for something like company
than an article, the really ought
to study his brother & his happy
we are at present pretty well
well, complaining of a few necks
pain. But nothing serious at all
I hope that I should be in a hurry, brother
has been out of sorts all together &
I have had my day, complaining
the last week that those who
you are so good & calm & calm & calm
would you to write back & write, you'll
find it all as whether there is any part
outside you want from here, in fact
this is the last thing we shall write
or what presents the 4 big boys, the old
boys I mean would like, (they depend on
it so as to be able to find upon doing
things to please them if they could
only wear plays, or even, that place, which
or play with dolls & needles, we could

Don't try saying to a man
(they say you can't) He needs things
I'm not sending better to these. What
thing I saw the most interesting one
we have ever read & he always
would be plenty & never thought
we'd be able to find it. It was
the father & I walked in the
park. And they have very little
planted there, just a few tiny
potatoes growing up & so all I was
in his place & but there are some
of the finer & from all the things
to his appearance that I walked
quite thinking. What says he has
my best of his & says he's late
to all I care about! After tea
we set out to our long walk
and you believe it we actually
walked every step of the way
home. Walked all the way & had
to say that on the road & got
into the house as the clock struck
9. And a bit more up & down,
we had a great day & had
walked home, these some day
and with us after a good

minutes walk I walked to the
with a little more & with
we made a very good supper
went to bed, so we lay down
to sleep with the moon &
light & no more of the great
at bed time for the little child
yesterday. The good news
was that the father & I were
so to bed. I was very tired
tired, but I was very tired
very - I was very tired & tired
there are many more from
London to the father & I
day or two. They very tired
very happy, & we are
walking & a little more
then this & I was tired
to the father & I was tired
to the father & I was tired
the father & I was tired
they can get a little more
when the father & I was tired
from the father & I was tired
from the father & I was tired

There are a few questions I want to
ask. We have had a few hints at
different times about getting 12 yds
of linen or a yd of blue muslin &c
and I'm not going to ask you what
you think for but whether you think
it best for us to get it here, & if so
whether there is any particular
kind of muslin. It is a delicate
matter to talk to the Elders in
a Mother said that as neither of you
girls took any from home I had
better just mention to you how I
might be able to get it here, as you
had to do for I can see I shall
be pretty short of cash after my
passage money expense. Now will
you answer me these questions. Please
say whether you would get them here &
the kind of muslin required. Now I
shall thank you for Mrs. Doxas wants to add
a few lines, as I shall leave her the help
sheet. Give our kind love to all the
girls. I can't forget my little
people. I hope your little girl has got quite
longer. Carry said she had been sick. Remember
me with love to all.
Your loving friend
E. L. G.

My Beloved Children, I thank God for
my inward comfort that at last there appears
a prospect of once more pressing you to my
heart. Oh may that cup of joy not be
deposited from our life, of course dear L. has
told you Father has said he intends
going, but we must be very discreet on
the matter on account of getting in our
money. and keeping the family together
as long as we can, we have no idea at
present when it is likely but hope it
will be before the end of the summer
we shall know when we see that
Father again some day. I hope you will
write back as soon as possible some of you
if not all, if I have no idea at all of your
Father's circumstances beyond his book
debt, but I don't suppose he will \$100. on
his expenses, that I don't come for if we
can but get altogether again and be all
happy together if he does go I hope & trust he
will make himself happy & contentedly
give my fondest love to all the others I hope
you are all well. dear James strong again
I am always thinking of him since I heard
he was so badly, it is a terrible age with him
now, but I hope God to bless & strengthen him
and all of you. I hope I shall over
have a letter from George I have seen him then
but I don't expect to see him well dear you must
not expect a very large amount of presents as
we shall not be overburdened with them if we come
I don't know yet how I will manage them. The
box is not enough yet but it will be all right
if the Lord will. I don't go, don't neglect to write
at once if you only a few lines. I hope dear Emma
will not get mad at the thought of seeing us

My Dear Mary Ann

It is nearly 4 months since I wrote to you & yet have received no answer. True I have heard many times since then of you but as A. Ross used to say that is not like receiving a letter directly from your own dear self, so I just send off a few hasty lines to remind you that perhaps if you don't soon write you may not have the chance to - for I am pleased to say that there will be a precious few more letters pass between the Savill's here & those who once had that name over the "Pond"- now don't nurse yourself up with the idea that we have really begun packing - it hasn't quite come to that - but Father has said candidly that his mind is made up not to spend another winter here & that he will leave as soon as all his affairs can be settled up. Need I say that this has taken

(2) quite a weight off our minds? We have been in a wretched unsettled state for some time which was quite preying upon Mother & making me almost miserable now the cloud seems to be lifting up for there is not that horrid separation to dread, At least if Father keeps in the same mind, Mother wishes you to keep this as quiet as possible that is, don't let it come bac, here just yet for Father thinks it might injure him, or prevent his getting in his debts if it was known so early beforehand, of course you understand what I mean. There seems positively nothing to tell you this time, for I guess you all read each others letters - but we want you to write back directly you get this & tell us whether there is any particular article you want from here, in case this is the last time we shall visit England & what presents the 4 big boys the old boys I mean would like (They Alfreds garden) it is so troublesome to fix upon any thing to please them - if they would only wear stays, dresses, kid gloves, ribbons, or play with dolls & marbles, we could (3) make a selection, but they only wear cloth & that seems quite out of

our line, We had the pleasure of reading a letter from Carry to her mother last week & were glad that at the time of writing James health was improving it seems a pity he doesn't try for something less confining than an hotel he really ought to study his health, I am happy to say we are at present pretty well - still complaining of a few aches & pains but nothing serious, Father has been out of sorts all together & I have had my old complaint The least wind that blows sets me mad with tooth ache so I keep in doors, sit stitching away up stairs alone when my little ones are dismissed & in the evening descend into the front garden where dear Dorcas & I have some of the most glorious chats you can imagine, but do you know who dear Dorcas is? I expect you will think it is one of my many

(4) "admirers" as you once pleased to style them - but let me tell you that Dear Dorcas is the pet name given to that precious Mother, we sit in that little room & talk all the evening for it is the only time we have together & when Father is out of course we feel great freedom of speech, These pleasant evenings spent with t at dear devoted soul in our bright comfortable little room will never be forgotten - no never, we often say when we look round it, "shall we ever have such a one after we leave this?" I guess not - for some time to come anyhow we are so proud of our home & perhaps rather out of conceit with many others so we shall have to leave it & face some few of the roughs that our Mary Ann met with, at 18 years old. Well it won't hurt us - although we shall feel it a little no doubt, I am quite satisfied that Father will see a good deal that will make him feel bad when he gets through the journey I guess we shall all

(5) know a little more then than we do now, Although I have heard a good deal from different ones, that I thought best to keep from Mother - it would only worry her, & I'm sure that is quite unnecessary, If George wants Father to bring him anything particular he had better write & ask him himself & do tell him to write soon. Last Sunday we all went to Hunsdon - took train to Burnt Mill, walked from there to Uncles, reached just in time

to be too late for beef steak pudding - but as we had a shoulder of mutton with us, we pitched in in proper workman like manner - being very hungry & tired - & talking of houses, comfortable parlors, bed rooms & e shall I describe that one? Well I think I won't, I am a hard critic & we went because we wanted to see them, not their house - some day perhaps you shall have it graphically described & picture included - for there were some (6) almost big enough to drive (pity they were not) We read George's very interesting letter to Uncle, I almost think it was the most interesting one we have ever read & he always sends us plenty of news . Mother went upstairs & had 40-11 winks while Father & I walked in the garden - but they have very little planted there, just a few tiny potatoes peeping up was all I saw on his piece - but there are some of the pieces of ground belonging to his neighbor that looked quite thriving, Uncle says he has neglected his so long - & "taters is all I care about." After tea we set out on our long walk - can you believe it - we actually walked every step of the way home - started at $\frac{1}{2}$ past 4 - had 2 long rests on the road & got into Windhill as the clock struck 9 - not a bit used up either, We had a most delightful walk home, Uncle came half way with us - After a few

(7) minutes rest, I cooked 6 eggs & with a little bread & butter we made a very good supper, went to bed, to be frightened to death with ugly dreams & nightmare - no more eggs just at bed time for this little child. Yesterday Mother could scarcely set her feet to the ground, she was so stiff. On Whit Sunday Susan, her husband & baby - with Nelly - her young man & several others are coming to their Fathers for a day or two - they say Susan is very happy, has an excellent husband & a dear little son - they hire a furnished room somewhere in Popear, have to pay 5 /^s per week but they are obliged to pay that until they can get a home of their own. We have not heard from Sarah

or Charles for some time past - Charlie was

(8) talking of coming over here this summer if he got the chance. We seldom hear from the folks at Colechester - but they are still in that sweet little cottage in the garden - "it's love among the roses" there if you like, I never saw a prettier little place & can picture it now, with the honey suckle creeping up over the two little windows, The whole place perfumed by it - large fruit trees loaded with blossom, The only thing wanted to complete it is a few little bright creatures running about getting into mischief, making ones heart leap fifty times a day - there is a peculiar solitude about the place - that only little voices & little faces could drive away - but do excuse me Mary Ann, I am running on railway fashion, I had quite forgotten who I was writing to - such light talk as this will not interest you so I will "cut it" that's slang again. Before I finish

(9..start on small page) there are a few questions I want to ask, We have had a few hints at different times about getting 12 yds of linen & a yd. of clean muslin & e now I'm not going to ask you what it is for but whether you think it best for us to get it here & if so whether it is any particular kind of muslin - it is a delicate matter to talk to the elders upon & mother said that as neither of you girls took any from home I had better just mention to you, because I might be able to get it there, as you had to do - for I can see I shall be pretty short of cash after my passage money is paid, Now will you answer me these questions, merely say whether you would get them here & the kind of muslin required. Now I must close this, for dear Dorcas wants to add a few lines, so I shall leave her the half sheet. Give our kind love to all the boys & girls - of course not forgetting the little people - I hope your little pet has got quite well long e'er this. Carry said she had been sick. Be sure you write back directly -

Your loving Eliza

(other side of page - 10) My beloved children, I thank God for my inmost

soul, that at last there appears a prospect of once more pressing you to my heart. Oh may that cup of joy not be dashed from our lips. Of course dear E. has told you Father has said he intends going, but we must be very discreet - on the matters on account of getting in our money, and keeping the trade together as long as we can, & we have no idea at present when its likely, but hope it will be before the end of the summer, we should know more when we see Bro Neslen again I dare say. I hope you will write back as soon as possible, some of you if not all, I have no idea at all of your Fathers circumstances beyond his book debts, but I don't suppose he will £100 over his expenses, that I don't care for if we can but get altogether again, and are all happy together, if he does go I hope & trust he will make himself happy & contented, Give my fondest love to all the others I hope you are all well dear James strong again I am always thinking of him, since I heard he was so sadly, it is a critical eye with him now, but I pray God to bless & strengthen him, and all of you, I fancy & hope I shall soon have a letter from George, I have seen him there last 2 or 3 nights so plain, well dear you must not expect a very large amount of presents as we shall not be over loaded with cash, if we come. I don't know yet how E will manage hers. She has not enough yet, but it will be all right if the Lord intends us to go, don't neglect to write at once if its only a few lines, I hope dear Emma will not go mad at the thought of seeing us You don't know how I feel some times about it, I almost dread the meeting, Kiss all the darlings for me tell them I will bring them something to please them, let us my dears be united in prayer to almighty God that we may not be disappointed I suppose you think your father can do very well there don't you

Don't say much about it beyond yourselves, May God bless you all is the prayer of your

Dear Emma

I will just write a few lines in answer to yours which I received this morning and was very pleased when I saw it I was enquiring every day but I should have been very much dissapointed if I had not one today. The time seems so long but there is a young man that I have formed an acquaintance with since I have been here. he is a very nice young man. too he is married his wife is in the city he and me are nearly always together if he goes anywhere its come on Jim or James & it makes the time more pleasant and I don't mind being here at all I would like it better of course if it was nearer the City but I cannot have it all my own way but it is no use shopping here for the pay is so uncertain I may not get any for 3 or 4 months and if I stay here I must have some bedding as it so bitter cold already nightand mornings and my shoes are nearly off my feet so I don't know how to manage I can't wait long before getting some money but I may come

(4) he says it need not cost me anything as I should go with him but I don't know yet what I shall do if I do leave here. I shall not stay in the city but a day or two till he goes as it will be an advantage to me to go with him but I may get something at Uinta if I do I shall not come home at all I don't like to leave work but I don't know what I shall do if I don't get some money but unless you write so that I get it by thursday do not write at all as I may leave when my young man leaves we have just done our washing he lent me some soap and I washed my shirt and towel, socks and hankerchief after ward we went away up on the mountains. dear E I am quite well in health and hope you and Charles are both better. I was so sorry to here of his sickness I must now conclude with my best love to all and remain your brother James

And now I called to part,
With those I hold so dear,
To say farewell, in vain I try
To check the rising tear

The happy times with you I've spent
My Brothers Sister, dear,
Will often cause reflections sweet
And not soften many a tear,

Though short the that we have known
Like other here below,
I've often thought me, er bound by ties
We don't as present know

The gospel of the son of God,
Unites our hearts in love
Oh may we all its laws revere
And ever faithfull prove

Though called to part for a short time
I trust, it will not be long,
Ere I shall meet with you again
And hear your voice in song

TODAY

Here is a poem that literally has made its way around the world. Published and republished in nearly every newspaper of this Country, its cheerful optimism spread to Europe, where it soon began appearing in the peoples' papers, and so ultimately to China and Australia. There is an interesting story about the first time Mr. Malloch recited the poem in public. It was at a dinner party at the home of Thomas W. Lawson, the Boston financier. When the poet had finished, Mr. Lawson arose and said: "It is a great thing to be able to make money, but it is a greater thing to be able to write a poem like that. And next to having written it, the greatest thing is to hear it from the lips of the man who did write it."

Sure, this world is full of trouble—
I ain't said it ain't.
Lord! I've had enough an' double,
Reason for complaint.
Rain an' storm have come to fret me,
Skies were often grey;
Thorns an' brambles have beset me
On the road—but, say,
Ain't it fine today!

What's the use of always weepin',
Makin' trouble last?
What's the use of always keepin'
Thinkin' of the past?
Each must have his tribulation,
Water with his wine,
Life it ain't no celebration.
Trouble? I've had mine—
But today is fine.

It's today that I am livin',
Not a month ago,
Havin', losin', takin', givin',
As time wills it so.
Yesterday a cloud of sorrow
Fell across the way;
It may rain again tomorrow,
It may rain—but, say,
Ain't it fine today!

DOUGLAS MALLOCH.

Lines addressed to "Mary Ann Savell" on her leaving
England for the home of the Saints

1
The time has come Oh much loved child to carry on his mighty work
When we must say farewell, On this the latter-day
And you will leave your native shore, and to the covenants you have made
On Zion's land to dwell. May you still faithful prove
Oh strive to earn the great reward,
And serve the God of love.

2
You'll go my dear at God's command
To track the mighty deep,
But never fear, Almighty God,
His own will safely keep.

3
Oh seek my child by earnest prayer,
For wisdom, grace, and power,
To guide your youthful footsteps through,
Temptation's trying hour.

4
I've fondly hoped the time would come
When as one happy band,
I with my children dear would seek,
A home on Zion's land.

5
But God our Father has decreed,
It otherwise shall be,
You must go first, - prepare a home,
And then you'll welcome me.

6
You go my dear to that blest land,
Where God's own Prophets stay,
Composed by her Mother
Mary Anna Savell
H. Hartford, Conn.

7
Oh thus Oh God, unto thy care,
I now commit my child,
Trusting in thee to keep her safe
Through dangers, dark, and wild.

8
Oh God of mercies design to hear,
A mother's heartfelt prayer,
For this her dear - her much loved girl,
Oh guide her safely there, -

9
And shed thy blessings God of love,
On us she leaves behind, -
That we, 'ere long, in that blest land
A home, with her may find.

10
And not for her alone Oh God,
Would I thy blessings crave
But all thy dear and faithful saints,
Dear Lord preserve and save.

11
Oh keep them Lord by power divine,
While crossing o'er the sea,
And may they still at every time
All glory give to thee.

12

To My beloved Children

Mourn not for your Mother
My Children so dear,
She has gone to her rest
Without sorrow or fear
To the gospel of Jesus -
Keep faithful and true
For she will be watching
And waiting for you.

May God bless you my loved ones
And Comfort each heart,
For I well know the pang -
It will cause you to part
With the parents you've loved
And been dutiful to.
Put your trust in the Lord
He will bring you safe through

Then greive not for your Mother
She now is at rest
And mingles her voice
In the songs of the blest
But keep faithful to God
Oh be kind to each other
Tis the heartfelt desire
And prayer of your Mother

Reflections on my 71st birthday

Is it possible that I am 71 years of age Yes its true and it reminds me that I am fast drawing nearer my God to thee and in looking back I am led to think how much of my long life has been devoted to thee my heavenly Father and I feel like hiding my face in shame at the small portion of my life that has been spent in thy service and I think what would I not give if I had served thee better in the days of my youth and I wonder Father, how I shall stand in thy glorious presence when it shall please thee to call me hence to give account Oh solemn-thought) but then comes the consolation (great to me) that my judge will not be poor short sighted man but the great Jehovah who is merciful as well as just and who remembers the weakness of his erring children and who know's not only my every thought and actions but also my desires and who knows that to love him more and serve him better the few remaining days or years of my life is my earnest desire, and I pray O Lord for strength to overcome every weakness and help me to do all the good I can. that I may receive the glad welcome well done enter into thy rest.

A WISH

(To Jessie)

May Heavens choice blessing upon you descend
As you journey through life, as wife, mother & friend.
And when you have finished your work here below
To your Father's bright mansions in peace may you go.
To enjoy the sweet rest that we sing about here
Surrounded by all that on earth you hold dear.
Fond husband, dear children, kind parents & friends
Where peace & enjoyment & life never ends.

Mary Anne Saville

(Another verse by Mary Ann W. Savill found in her notebook)

May the God of peace & love
Smile upon you from above.
Guide your youthful footsteps right
To the realms of endless light

TO MY LOVE

Happy may you pass each year
Blest with all that life holds dear
Fond wife & children, parents, friends
The love of God which knows no end

Keep firm Oh my love to the gospel of truth
May God bless you in age, as He blest you in youth.
May you never prove traitor to friend or to brother
Is the earnest desire of your affectionate mother

ALFRED JOSIAH TAME

I thank the lord that we are here
In this much favoured land
Surrounded by our children dear
A peaceful loving band

I pray the lord my life to spare
To comfort cheer and bless
You the dear partner of my youth
Untill your laid to rest

And then when Father calls me home
Oh may I worthy be
To go and live with you again
Through all eternity

TO MY HUSBAND

A few thoughts suggested on the 50th
anniversary of my marriage, August 3, 1890

Fifty years my Husband dear
We man and Wife have been.
And Oh how many changes
We in that time have seen.

We've worked and toiled and struggled hard
The bread of life to win
And strove to train our loved ones
To shun the paths of sin

We've had our share of grief and joy
Along lifes thorny road,
But Oh what countless blessings
Have on us been bestowed

By God our Heavenly Father
Up to this good Old age 74
Then let us strive to love him more
The remant of our days.

"DO THEY MISS ME"

Do they miss me do they miss me at home

Do they miss me I would be an assurance most dear

to know at this minute some loved one was saying

I wish you was here to know that the group at the fireside

was thinking of me as I am

Oh yes I would be joy above measure to know that they miss me at home

When twilight appears and the season

That ever was sacred to song

does some one repeat my name ever

and sigh that I tarry so long

and is there a cord in the music

that is missed when my voice is away

and is there a cord in each heart that regrets

at my wearisome stay.

No they set me a chair at the table
When evening home pleasures are nigh
when the candles are lit in the parlor
and the stars in the calm azure sky
and a joyless inviting welcome,
and pleasure less hail than before
because one is missed from the circle
because I am with them no more.

No they miss me at home
No they miss me at morning
at noon and at night
and linger one growing shad round them
that only my presence can right
And when we good night are repeating
And each lay them selves down to sleep
do they think of the absent and waft me
a loveing good night o'er the deep.

Answer

We miss the at home
Yes we miss the since the home
we bade the adieu,
and prayers have incircled thy pathway
from anxious heart loving and know
that the Saviour will bles protect the,
as far from the loved ones you roam,
And wisper when ere thy heart sadens

we miss the o miss o miss the at home.

When morning awakes us from slumber

we catch from the lips the first _____

and fold in a wam _____ zepher

To be given to him

we whom we miss.

And when we have joined the home circle.

and replace the still empty chair,

In each eye aries a gathering teardrop

for him whom we want to see there

the shadows of evening are falling,

Oh were is the wanderer now.

The Breese that floats lightly around us

perchance may _____ his brow,

oh bear on thy Bosom a message

we are watch oh why wilt thou roam,

Our hearts are all sad and dejected

we miss the oh miss the at home.

STAY

DEATH OF A NOBLE

Aunt Susannah Spencer Passes Away In
Her Seventieth Year.

His design was unaltered and will
 cause a shock to the *Arjuna*—
 tribute of one who knew her.

But Sunday's Report is dead, as we have seen, and the words that were spoken with it are dead, many things today. Expressions and words surrounding the bloody chapter of the mortal career of an honored man or woman may always bring more or less of new with them. But it is not often that the new and oldings of death are spoken with such deep feeling as they were in the case of the deceased.

Mrs. Susanna Neale Spencer was one of the noblest of heroines. Said one distinguished Utah woman concerning her: "She was the best woman I ever knew" and when I say that I mean her with a full appreciation of the gravity of the statement. Her life was one of selfless purity, self-abnegation and untiring deeds as a wife, mother and nurse. In her own words: "As a mother, she was the incarnation of maternal solicitude and loved her children better than her own life. In the broad field of womanhood she lived quietly and unostentatiously, scattering seeds of kindness wherever she went and maintaining at all times the highest standard of morality. She was truly said of her that the world is better for her having lived. Her life is a distinct loss to the community."

The deceased was a native of Lowestoft, Suffolk, England, the wife of John V. Spencer, and the mother of William V. Spencer, of the City of New York.

There were many people gathered about the family yet no one was invited. When the mail came, revealing they were not invited with grief for their loved ones, he was very great. Her suffering was severe at times though death itself was a terribly painful and as plain as a summer's dream. Her last moments were simply a reflex of the beauty of life. She had lived and she passed away while pronouncing benedictions upon the heads of her children and testifying to the divinity of the Father-creator of all who she had been so true an exponent.

Many of the early settlers will remember the place as the daughter of Samuel and Elizabeth Nelsen, who lived for many years in the large old house where the handsome modern residence of Judge Harkness now stands on South Main street. She came to Utah on September 20th, 1853, and spent the remainder of her life in Salt Lake. Her husband and children she leaves the following children and sisters to mention, Benjamin, Robert F. Nelsen, William A. Nelsen, Mrs. Samuel Truckser, Mrs. William F. Foster, Mrs. George M. Clinger, Mrs. Samuel Dean and Mrs. John Sharp, Jr.

So, tis done: the curtain drawn
On life's mingled bliss and blight;
And a wondrous rush of dawn
Risen on her marvelling slant,
With her spirit's glad release—
All the morrow's warfare past
Shows the flower-starred buds

Adieu, by the Mother to her Daughter,
1st.—

The time is come for you to go,
To a land of peace where freedom flows,
Go up my Daughter to the West,
Receive your Blessings, and be blest.
2nd.—

And when you're moving on the way,
To that choice land where you will stay,
Forget me not I soon will come,
To crown's Mount my lovely home.
3rd.—

Go home in peace thou Saint of God,
Be firm, and Steadfast on the way,
Listen to the voice of God,
Obey his counsels every day.

4
Then you shall reach in safety there,
To meet with those who will be ever dear,
in the Valley of the West,
There you'll behold a glorious race,

5
A race of noble spirits.

Will go from every land,

Embraced by
Elder John B. Smith.

Rise up my Daughter dear,
To Zion haste away,
For that's the only place for safety,
in these the latter days.

8

The gathering place in this our day,
is set a part by God's appointed way,
Where Saints will flow from every land,
And build up Zion at the Lord's command.

9

A land of peace, and liberty,
Zion's fair Daughter's soon will see,
That will be gathered from every clime,
To dwell with Christ in love divine.

10

The thought of such a happy time,
Will soon cause me to leave this clime,
To dwell with you in that choice land,
Where peace will be when freedom reigns.

11

So don't despair for I will come,
To meet you in my mountain home,
And spend a peaceful time with thee.

When Zion's Son's will all be free.

12

So now adieu my Daughter dear,
Till we on earth shall meet again,
Beyond the sea where pure love will be,
Where Saints will dwell in unity.

Total	\$144.50

Taxes and funeral expenses have been paid by the heirs.

I have paid the above amounts and there has been paid to me by Mrs. Tame \$5.00 and by E. C. Tame \$5.00 and I will discount attorney fees \$10.00.

Respectfully,

B. Clegg
