

Thurs. Jan. 18. 34.

Dearest Elinor.

Just a word to greet you on this wonderful time in your life and mine. I am full of good wishes for you and hope you are going to have the best year of your life.

There is nothing in this world too good for you - We all join in my best wishes for a happy birthday.

I hope you have so many dates you don't know what to do with them all.

Your nice but short letter came this a.m. and I was glad your cold is some better, be sure and not get any more cold this winter or spring. I would advise

you. drink plenty of water after
you partake of the contents of
the package I have sent you.
Ima made the "divinity" and I
made the rest, I hope it reaches
you in good shape. If any of your
men friends come to see you be
sure and give them some, so you
won't get sick eating too much of
it. Of course it maybe it will
be too stale if you don't use it up
rather soon. If you put the cake
and brownies in your tin perhaps
you can keep it from getting hard
Ima & Julie join in best wishes for
your birth day also. I really want
you to get a kinsona night away

as you need it ³ when you have any
one see you in your room, so do
see what you can do. Of course it
may be you need something more
than a movie but use your judgement.

We are all well and happy and
wish we could celebrate the 20th
altogether under our roof and
have a real blowout. But!! it
cant be so we must all smile
and wish for better luck some
other Jan 20th. Write me as to
how the box and contents arrived,
if it was in good condition.
Lots of love from the family
and oceans from your dear mumsy.
As ever yours. Morder.
