

Am Fork Dec 4 - 1932

Iron and Clara and Marion & Hunter
Dear Sons and Daughters I have
a little time before starting in to
my chores we shur enjoyed your letter
all so Marions we could hardly believe
she wrote it she is shur smart of
her age pleased to know that you was
all well and enjoying life under the
depression and give thanks for the little
we receive but we had a good thanks
given Dinner at Doras John took us and
Elmors Family out to Toole and it was a fine
day and we shur had a good time returning
home he went to S.C. and left the
Jensendon and went home with us and
stoped over night they all went back to visit the
Folks next morning El Freado and Boby seemed
to enjoy them selves he is quite a boy for
the little Horse we did not know he was

2

such a little man the Children soon
grow up I hope they wont forget their Grand
Parents it is shure fine to be remembered
by our Grand Children that we dont see
often but we often think of them and
hope they will grow up to be good Men and
Woman and be a Blessing to their Fathers
and those they represent on Earth I dont
know any thing that brings more comfort
and pleasure to see your Children
Love each other and do good to each
other and extend this Love to others
and it will return back a gain to you
it is like bread scattered upon the waters
that will return after many days we received
a letter from Albert the other day the Family
is well they bought a herd of Sheep from
the Bank 1200 head and a rainig spring
and sumer it is between north ~~Idaho~~ Idaho
Wyoming it is a fine Range it cost
him \$40000 he has shure saved his
money and I think it was a good buy I think
he is preparing for the future I think it is
the only way to do to live in the future

and prepare for³ Old age but it dont
take long to take every thing away from
Old so the only thing is to build for Eternal
Life I expect You and the Children attend
Your meetings and take part in the church
it will give You more comfort and joy than
any thing else we are passing through a straining
time that will make men hearts fail them for
fear I expect You have about the same
time as we have hear and how You can
keep up Your payments on Your Home
is a hard thing to do thair is few in this
part that can do it I think I soon has
don well and You have all so we do hope
that things will change for the better it is a
straining time for all of us I have not received
any answer from my sister Laura when
You write dont forget to mention her
I do hope Joseph Coone will take care of his
Mother and not let her suffer nor want I must
close or it will find it way in the wast Basket
we hope You will write us often and tell
us all the news good or bad that we may do what
we can and may the Lord Bless You all
is The Grace of Your Father and Mother
